CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Becky has been a registered childcare provider since October 2005. Becky is a category A provider and she has one assistant/substitute, her daughter, Heather. Becky's current childcare hours are 4:00am to 7:45am, she watches children before school and then transports them to school. Becky does watch the children full-time over the summer months. This visit was an annual compliance visit and also a pre-inspection of Becky's new home.

2. Identify Observed Strengths Of The Program

Becky was not caring for any children at the time of the compliance visit. At this time, the family that Becky provides care for only requires before school care during the school year.

Over the summer Becky said that she keeps the children occupied by doing a lot of activities. Becky said that the children were involved in the library's summer reading program. Becky said that she would take the children to the water park, the park, a fountain and any other community activities.

Becky's mother had a masters in early childhood and she also ran a childcare. Becky's daughter, who is also her substitute, is a teacher at Headstart.

3. Identify The Aspects That Fall Below The Standard

Becky was found to be in full compliance.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

None.

5. Special Notes/recommendations

Targeted Compliance: Emergency Preparedness Plan

Becky will update her EPP when the children start attending childcare at her new location.
