LICENSE CAPACITY	Infants	2 Years	Preschool	School-Aged	Capacity
General				57	57
Summer					0

1. Basic Overview

An unannounced licensing visit was completed at this center on 9/12/25. Karrie Palsgrove is the owner and qualified director of the center, and she was present for the visit along with another staff. The center is for profit. The center provides care for school age children who attend the Camanche Elementary School before and after school on school days only with Friday afternoon care being longer because of early dismissal each week on that day.

The center uses the cafeteria of the school as the primary licensed program space. Cafeteria tables are used for table activities. The center provides abundant supply of games, blocks, dramatic play items, drawing/coloring materials, etc. Staff do an excellent job of setting materials out for the children to allow the children a choice among a variety of activities. The center uses plastic baskets labeled for each child to store their personal items separately and ensures children place items inside the baskets. Restrooms areas for toileting and hand washing activities are located in the hallway outside of the cafeteria. The school gym may be used at the start of the program on certain days that the school offers a tutoring program and uses the cafeteria for a brief time. All program space was observed.

The center serves afternoon snack only. The center does not participate in the CACFP but understands the requirement to follow those guidelines.

2. Identify Observed Strengths of the program

The center continues to provide a much needed resource to the children and families in this community. The center reports an excellent relationship with the school. The school itself appears clean and well maintained. The center provides an ample supply of well maintained and highly organized materials for play and program activities. Items are brought out and set up on the tables and floor so that they are readily accessible to the children. The children were once again observed to be highly engaged in play activities. The staff are highly experienced and work well together, and the staff were also again observed to be engaged with the children. It is obvious that the staff know the children well. Staff and child files and licensing information continue to be highly organized. The attention to detail observed in the operation of this child care center does not go unnoticed.

3. Identify the aspects that fall below the standard

N/A

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

N/A

CHILD CARE CENTER ANNUAL EVALUATION

5. Special Notes/Recommendations

This center will continue with a full license. This report does not require a written response. Thank you.

Date: 09/22/2025

HHS Licensing Consultant: Heidi Hungate

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Care License. Please take steps necessary to completely address each of the violations noted above.

Child Care Resource and Referral is an excellent resource for providers to access training options and support in your area. You can reach Child Care Resource and Referral at **https://iowaccrr.org**.
