CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Jessica has been providing registered child care since 2006. Jessie has previous experience working in child care centers and similar environments since 1998. Jessie accepts children aged newborn through school age. Jessie notes that she does try to keep children that are similar in age to kids already in her care. If she does not have any school agers, she lets parents know there are no age appropriate friends for that child currently enrolled. Jessie provides a play based, flexible child care environment for children in care. Jessie has an approved assistant, Deb, who assists in the home several days a week. Jessie's husband is an approved substitute and is occasionally used if Jessie has appointments. Jessie does not currently have any openings in her child care.

2. Identify Observed Strengths Of The Program

Jessie has a very child friendly environment. There are bright colors and signs on the walls and a large assortment of age appropriate toys and activities for all stages of development. Jessie believes her greatest strength is her open communication with parents regarding their children. Jessie is open and honest with parents and assists and supports parents if additional referrals may be needed for their children. Jessie informs parents of challenges children encountered, however, always tries to also provide the parents a positive for their child. Jessie is a participant in the CACFP food program for child care providers. Jessie is organized in her paperwork posting required items and maintaining other documents in a filing cabinet for easy retrieval during annual compliance visits.

3. Identify The Aspects That Fall Below The Standard

110.9 (4) e : For infants and preschoolers: A statement of health signed by a physician submitted annually.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

Jessica has two children that need updated physicals.

Child files will be reviewed again at next year's compliance visit and do not need to be submitted. Nothing further is required.

5. Special Notes/recommendations

Targeted compliance of Emergency Preparedness Plan completed. Plan remains up to date and accurate.
