CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Vicki has been involved in child care for over 10 years now. Vicki is a category C child development home with her co-provider Jasmine. Vicki has a full staff of assistants/substitutes that also work regularly in the child development home. Vicki stated that they provide a full preschool program to help enrich children's vocabulary, social and emotional development. This child development home offers individual and group activities, daily circle time, monthly themes for crafts and activities, and daily music and yoga. The main level and basement of the home are both used for child care. The child care environment is well thought out and organized, offering a transportation area, imaginative play area with kitchen and dress up, books on display, and a toddler area with age appropriate manipulatives. Vicki provides care to children from infant through school age Monday through Friday for first shift families.

2. Identify Observed Strengths Of The Program

Vicki believes their greatest strength in caring for children is that they genuinely care about children and work hard to nurture their physical and emotional well-being. Vicki reported that she trusts her staff and knows that they will take good care of children. Vicki utilizes one of the child care management programs, which makes their child files easy to view and identify needed forms. Vicki's environment is extremely child friendly and organized, offering the children a wide variety of activities in a safe learning space.
