CHILD CARE ANNUAL EVALUATION

1. Basic Overview

The provider resides in a small two-bedroom home with adequate space for a Category A home. The home is located near railroad tracks but has a nice fenced in play area for the children. The provider has a cat. There is a hamster located in a cage in her daughter's bedroom that the children do not have access to. The older children nap in the living room, while infants nap in Tricia's bedroom just off of the living room.

2. Identify Observed Strengths Of The Program

Tricia keeps her home neat and clean despite the constant clutter of the children's toys. Tricia has plenty of age-appropriate toys and activities for the children. She has both activities for fine motor skills and for large muscles. The children were playing with playdough today during the visit. Tricia interacted positively with the children, and they appeared comfortable in her presence. Tricia is committed to providing a quality childcare program.

3. Identify The Aspects That Fall Below The Standard

Tricia met all HHS requirements at this compliance check.
