- [ ] Registered Child Development Home C1
- [ ] Non Registered Child Care Homes accepting CCA

Program Population Served:

- [ ] Infant(0<24 mos)
- [X] Toddler
- [X] PreSchool
- [X] School Age
- [ ] All Ages

1. Basic Overview

Marie was approved through a Pre-inspection in September of 2025. This is her first full inspection since that time. Marie does not currently have children enrolled and has not since getting approved last fall. She does currently have a part-time job outside of the home but hopes to get some children enrolled in care in the near future and then may not continue with that employment. Marie shared that she does not want to care for children under the age of one but is willing to care for children one and older. Marie is not enrolled in the Food Program but did express some interest if and when she has children enrolled. Marie has a split foyer home. She plans to primarily use the lower level of her home for childcare but also noted she may use the main level at times as well. The lower level is approved for use as a Category A provider. Marie has a partially fenced yard and is at the end of a road with a large side yard space and limited traffic. Marie does not have any pets. Marie's husband Jeremie is approved as both a substitute and assistant.

CHILD CARE ANNUAL EVALUATION

2. Identify Observed Strengths Of The Program

Marie does not have any children enrolled so this worker was not able to observe interactions with children. She and Jeremie presented as having a desire to provide quality care. Marie indicated she would provide activities for both large and small motor skills.

The home was clean and Marie had appropriate safety latches on cupboards as needed.

3. Identify The Aspects That Fall Below The Standard

110.8 (1) p : The provider has written policies about caring for mildly ill children and the exclusion of children due to illness, and informs parents of policies.
Marie did not have this written policy. We did discuss this at her PI last fall.
*Marie needs to develop a written policy about caring for mildly ill children and the exclusion of children due to illness, and she needs to inform the parents of this policy. Marie needs to send pictorial verification of compliance to this HHS worker.

110.8 (1) q : The provider has written policies about responding to health-related emergencies.
Marie did not have this policy.
*Marie needs to develop a written policy about responding to health-related emergencies. Marie needs to send pictorial verification of compliance to this HHS worker.

110.8 (1) r : Certificate of registration is displayed in a conspicuous place.
Marie did not have her certificate displayed.
*Marie needs to display her certificate of registration in a conspicuous place.

110.9 (1) a : Within six months of becoming registered, a physical exam report documented on form 470-5152, Child Care Provider Physical Examination Report, for all household members over the age of 18. Physical exams should be repeated every three years.
Marie did not have a current physical exam.
*Marie needs to obtain a current physical exam, and it needs to be documented on the approved HHS form. She was made aware that she needs to take a copy of the approved form with her to the Dr to get that filled out accordingly.

A re-check is not needed at this time. The above corrections should be made within 3 weeks (by 10/13/26) and will be reviewed at the next annual compliance check.
Please send pictorial verification of compliance of the items where specifically noted above to christy.weber@hhs.iowa.gov or text to 319-429-0749.

Thank you for your service in providing childcare in your community.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

NA

5. Special Notes/recommendations

Notes:
Marie shared that she may consider transporting children to and from school if and when she has children enrolled in care. We did discuss all regulations in regard to transporting childcare children.
Marie shared that she may consider using a small pool for childcare children and we did discuss pool safety and

requirements around the use of a pool in childcare.
We did discuss safe sleep policies. Marie does not plan to take children under the age of one.
We did discuss the number of children she is allowed to care for at one time as a Category A provider. Marie does have one child of her own that is not yet in Kindergarten, and does count towards the number of children she is allowed to have at one time.
Children's files were not reviewed on this date as she has no children enrolled. Marie has been provided the required documentation for the children's files, and we did review those requirements, so she is aware when she does get children enrolled in care.

Marie and Jeremie also asked some questions about what might be needed in the home if they change to a Category B or C. We did discuss that they would not be able to use the lower level of the home if they move beyond Category A as they do not have an approved secondary exit.

As part of the 2026 Targeted compliance the Emergency Preparedness Plan was thoroughly reviewed. Marie was in compliance with her EPP.
She was encouraged to review it at least yearly to ensure that no changes need to be made.

Recommendations:
As of 7/1/25 providers are expected to notify all parents in writing that the state does allow parents to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. We did discuss this at her Pre-inspection last fall but as of today she did not yet have anything in writing. Marie does need to document something accordingly and ensure that is provided to all parents accordingly. It should be noted that she has not yet had any children enrolled since being approved last fall but does still need to ensure that she has the appropriate documentation for when she does have children enrolled in care.

Marie was provided a binder by CCR&R last fall. She is encouraged to use that for organization of her required documentation.

6. ADDENDUMS:

- Addendum1: As of 11/5/26 Marie has sent pictorial verification of compliance of the items requested.

This Addendum is approved by supervisor on 11/5/2026

HHS Child Development
Home Compliance Worker: Christine Weber Date: 9/22/2026

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Child Care Resource and Referral is an excellent resource for providers to access training options and support in your area. You can reach Child Care Resource and Referral at I encourage you to work with Ashley Cram with Child Care Resource and Referral if you have any ongoing compliance or training needs.
