CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Stacia Davenport has been a childcare provider for 37 years. She is a Category A childcare development home and she is at full capacity at 8 children in care. Her hours are 7 am to 5:30 PM. She uses the main floor and the basement for childcare. The main floor is mostly used for lunch time and to go to the backyard for play. The basement is where the children will nap and play. The provider is up to date with her mandatory training requirement. She is currently working to renew her ChildNet Certification. The provider also works with the food program to provide two balanced meals and one snack daily.

2. Identify Observed Strengths Of The Program

Compliance staff observed the provider and children interacting during the visit to the home. The provider has a calm voice with the children and is attentive to their needs.

The provider reported that she will rotate out toys so that there are new things each month. The provider talked about the children loving music and that she has a box of instruments for the children to play with and try.

3. Identify The Aspects That Fall Below The Standard

The provider was in full compliance with regulatory standards.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

2026 targeted compliance measure: Emergency Preparedness Plan. The provider has a completed EPP plan that identifies planned actions for evacuation, shelter in place, lockdown, communication and reunification. The plan also addresses continuity of care in the event of a disaster at the location of the childcare.
