Summer					0

1. Basic Overview

I completed an unannounced visit on 05/13/26 and was able to speak with Director Kirsten Taylor. Ms. Taylor holds a bachelor's degree in Exercise Science and Physical Education for all grade levels, along with many years of experience working with children.

Okoboji Y-Kids is a licensed childcare program operated by the Bedell Family YMCA and serves families in the Okoboji and Spirit Lake school districts. Designed for school-aged children (ages 5–12), the program provides structured before- and after-school care, as well as summer childcare options. Its mission is to support working families by offering a safe, enriching, and convenient environment for children during out-of-school hours.

During my visit, I observed all areas of the center, including classrooms, activities, nutrition practices, health and safety procedures, the playground, and conducted an administrative review. I observed the Okoboji site on this date. The program is located within the elementary school and utilizes the lunchroom, gym, and playground. A variety of games, activities, homework assistance, and crafts are available to engage children. there are 41 children enrolled in this program.

Students receive a snack and milk from the school, and the program follows CACFP guidelines.

The Summer Adventure Club is offered during the summer months for children ages 5 to 10. This program provides full-day summer childcare with a combination of educational and recreational activities, as well as opportunities for social interaction and personal growth. Children swim at the YMCA several times a week and participate in weekly field trips.

Monthly fire and tornado drills for April were not completed, and there was no current fire inspection available for review.

CHILD CARE CENTER ANNUAL EVALUATION

Radon testing has been completed, and results were within normal levels. Good sanitary practices were observed throughout the facility, and the fuel-burning inspection was completed.

Financial assistance is available for families who need it, and applications can be easily completed online.

There is a new school being built and

Program goals continue to focus on achieving IQ4K certification, demonstrating their commitment to ongoing quality improvement.

A new school is currently under construction and expected to be operational in the fall, which will provide updated facilities and expanded opportunities to better serve the growing needs of the community.

2. Identify Observed Strengths of the program

Being certified in IQ4K means a childcare program has met Iowa's state-recognized quality standards in areas such as safety, staff training, learning environments, and family engagement. Y Kids has been actively working with their Childcare Resource and Referral Consultant regarding IQ4K.

The Y's youth programs are built on four core values that guide how staff support and interact with children each day. Caring encourages kindness and helps create a welcoming, supportive environment. Honesty teaches youth to be truthful and build trust with others. Respect ensures that every child feels valued and treated with dignity. Responsibility helps children learn to make good choices and contribute positively to their community. Together, these values shape a nurturing space where children can grow and thrive.

3. Identify the aspects that fall below the standard

109.10(13)b: Emergency instructions, phone numbers, and diagrams for fire, tornado, and flood shall be visibly posted and documented at least once a month for fire and tornado. Records shall be maintained for current and previous year.

109.11(3)a: Center shall ensure that: Facility and premises are sanitary, safe, and hazard free. Sufficient lighting shall be provided. Sufficient ventilation. Sufficient heating. Sufficient cooling. Equipment placed in the program area is maintained so as not to result in injury to the children. Please complete Fire Inspection every 3 years.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/Recommendations

Targeted Assessment: Behavior Management
I discussed with Ms. Taylor regarding her oversight of behavior management related to helping childcare staff: 1) Understand expectations, 2) managing frustrations, 3) monitor performance

She reports that the YMCA's approach to discipline is rooted in positive, respectful behavior management. Staff and volunteers consistently use praise, encouragement, and logical consequences to guide children's actions, modeling appropriate behavior and providing alternatives to misbehavior rather than punishment. She feels that staff have a good working relationship with one another and that if needed they speak up and indicate that they need a break if they are getting frustrated. This is monitored by Ms. Taylor as well as her on-site supervisors.

Please email consultant when those aspects cited as not meeting licensing standards have been corrected by07/01/25

At least one visit will be made to the center during the next year.

CHILD CARE CENTER ANNUAL EVALUATION

A full license is recommended at this time at this time.

Date: 05/19/2026

HHS Licensing Consultant: Leann Steinhauer

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Care License. Please take steps necessary to completely address each of the violations noted above.

Child Care Resource and Referral is an excellent resource for providers to access training options and support in your area. You can reach Child Care Resource and Referral at **https://iowaccrr.org**.
