I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

Visited the center on 12-11-23 and spoke with Director Laura Wright. Laura is also the director of Siouxland Christian Preschool. Amy Javorsky, had been the director, however, they moved the school age program to the Siouxland Christian Preschool building back in 2021 so this program had closed in the spring of 2021. On 08-23-23 the program reopened for the afternoon only for school age children Kindergarten to 6th grade. Jacob Crabtree is the onsite supervisor and a teacher at Siouxland Christian School. The program operates Monday thru Friday 3:00-5:30pm. Once a month the program has an early out for a teacher in service at 12:30pm on a Wednesday so children are there from 12:30 to 5:30pm on that day. The program uses two classrooms and the lunch area(for snacks) and the gym. Capacity is 74.

There are 40 children enrolled in the program. At the time of the visit there were 24 children present. The center continues in following all guidelines put forth by DHS regarding the corona-virus and doing everything they can to support their staff and families during this time. The center continues in cleaning toys daily that children use. Sufficient amount of toys and equipment for the number of children. Daily schedule of activities was posted. Parent board needs to be posted for families. The center utilizes Christian based Curriculum. Center uses Bright Wheel App for administration duties.

The program provides healthy snacks They are not currently on the food program but follows nutritional snacks of the food program. All areas of the program were observed.

The center utilizes the commons area and the adjacent gym. The children have a fun variety of age and developmentally appropriate toys and equipment. Children have access to bathrooms and need to be in sight at all times.

Center Nutrition Practices Observed
The center provides snacks. The center has a refrigerator with appropriate temperature for food storage. Good food storage practices were observed. The center follows the CACFP guidelines for nutrition but are not on the food program.

Center Health & Safety
Center does not administer any medication. Tables are sanitized prior to children eating. First aid kit is sufficient to treat minor injuries. Fire/Tornado drills were documented. Radon test and annual heating inspection are exempt as the program does not serve preschool children. If the center were to start serving preschool children then these would be required for licensing. Good health and safety policies/procedures are in place.

Center Playground
A fenced in playground is adjacent to the center. The playground has fairly new playground equipment. Rubber mulch and Turf are used for surfacing around all the playground equipment. A large gym is also available for the children to use during inclement weather. Shade is available on the playground. Center completes monthly playground inspection.

Center Transportation Arrangements/Field Trips
The center does not transport the children.

Goals that to hire more staff. Get on IQ4K for this site.

Strengths that Laura feels the program has is that she has good relationship with the children/families that she serves as well as a good relationship and support from the school and tries to improve her program every year. She also works closely with CCRR for their support and resource.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Staff have good relationship with the children they serve and their parents.

Positive interaction with the children.
