Program Population Served:

- [ ] Infant(0<24 mos)
- [ ] Toddler
- [ ] PreSchool
- [ ] School Age
- [X] All Ages

## CHILD CARE ANNUAL EVALUATION

**1. Basic Overview**

I conducted a compliance visit with Registered Child Development Home Category B provider Ashley Schuchhardt on 7/31/2026. Ashley has been involved with child care for 4 years. She continues using the main floor only of her ranch style home. The main floor has a very open design with a living room/dining room/kitchen/family room all connected. Ashley had 8 countable children in care during our visit and cares for 13 total at this time. (Several of her children are part time.) Ashely has one HHS-approved substitute/assistant. She has 2 dogs and 1 cat, all with current vet statements on file. Ashley uses her front yard or local park as a primary outside play area. She is due to renew her registration effective 2/28/2027.

**2. Identify Observed Strengths Of The Program**

Ashley has regular contact with her CCR&R worker. She describes her strengths as keeping all of her children safe, teaching them to follow instructions, and promotes playing together to develop social skills. She uses the "Real Life Learning" curriculum. There is lots of free play mixed with coloring, arts, crafts, circle time and learning activities. They have very regular outside time anytime weather allows. The children were involved in a variety of free play activities during my visit.

**3. Identify The Aspects That Fall Below The Standard**

110.9(1)b(1) Certification by an approved training/organization in infant and child first aid and CPR.
- Ashley needs to find a copy of her current certification in CPR/First Aid to have on file.

110.9 (4) e : For infants and preschoolers: A statement of health signed by a physician submitted annually.
110.9 (4) g : A signed and dated immunization certificate provided by the state Department of Public Health.
- Ashley needs to update a couple of her children's files with current physicals and immunization forms.

The above corrections need to be in place by 10/15/2026 and will be reviewed during her next visit.

**4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance**

N/A

**5. Special Notes/recommendations**

The 2026 targeted compliance for the Emergency Preparedness Plan was conducted. Ashley was in compliance having a plan consistent with her current operation.

I encourage Ashley to work with Shelby Hageman from Child Care Resource and Referral with any ongoing compliance or training needs.
Shelby can be reached at: (319) 433-7760

Ashley had one infant under 12 months of age in care during our visit who was awake. She has pack-n-plays for napping and we reviewed safe infant sleeping policies.
