CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Trudy Rosenbaum has been a childcare provider for over 5 years. Previously she has worked in a center for 7-8 years and other places in the community. The provider reported that she is full with her childcare numbers. The provider reported that she works with the food program. She also reported that they are mostly play driven by the children's interests. She does do the Pledge of Allegiance daily with the kids.

2. Identify Observed Strengths Of The Program

The provider has toys, blocks, books and many activities to keep the children busy while they are in care. She reported that they go outside to play as often as they can and when the youngest child is not sleeping.

The children were playing with toys when compliance stopped by to visit. The provider turned on music for the children while we talked. The provider remained attentive to the children keeping an eye on them at all times during the compliance visit. She immediately responded to the children when they got her attention.

3. Identify The Aspects That Fall Below The Standard

The provider did not have monthly drills and smoke detector checks documented. We discussed that she could use the forms the state has available or a sheet of paper.

Each smoke detector is tested monthly, and a record is kept for inspection purposes.
Fire and tornado drills are practiced monthly and documentation kept on file for the current year and previous year.

**Please start documenting your monthly efforts for drills and smoke detector checks. Please start with November 2025 and this will be reviewed at your next compliance visit.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

Compliance staff discussed safe sleep, emergency preparedness planning and shared recent legislative updates.
