CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Karen Robison has been providing childcare services for 34 years. She currently has five children registered, but by summer she will have eight children in care. She cares for all ages of children. Today in care, she only had two children and reported the other three are in school. Compliance staff visited close to lunchtime and the provider was working to get lunch available. The provider works with the food program and provides two meals and one snack daily to children in care. The childcare is located on the main level of the home. The childcare encompasses most of the main floor of the home. All activities and daily routines are held in the living room, dining room, play room and kitchen area.

2. Identify Observed Strengths Of The Program

The provider stated her strengths are that she is organized, responsible and that she loves working with children.

Compliance staff was able to observe the provider with the children and she addressed the needs of the children during the visit.

The provider reported that they try to keep busy throughout the day with toys, activities, dancing and getting outside when the weather is cooperative.

3. Identify The Aspects That Fall Below The Standard

The provider was in full compliance with regulation standards.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

2026 targeted compliance measure: Emergency Preparedness Plan. The provider has a completed EP plan that identifies planned actions for evacuation, shelter in place, lockdown, communication and reunification. The plan also addresses continuity of care in the event of a disaster at the location of the childcare.
