CHILD CARE ANNUAL EVALUATION

1. Basic Overview

A compliance visit was conducted on 10/28/25 at Shandi's "B" Child Development Home. Shandi reports her hours are 7-5:30 M-F. She accepts state child care assistance. Shandi reports doing child care for 22 years, with over 12 years being registered. She reports that she has a schedule for the day although activities can change from day to days such as circle time, crafts and baking days. She stated taht during the summer they spend as much time as possible outside.

2. Identify Observed Strengths Of The Program

Shandi has a wealth of experience and reports that she loves her job and the children she serves. She reports that patience is one of her strengths. This worker observed Shandi to have appropriate interactions with the children. One extremely shy child was held and comforted by Shandi during my visit. Shandi provides the majority of care in the basement where it is set up with toys and activities to entertain the children.

3. Identify The Aspects That Fall Below The Standard

Emergency numbers posted for police, fire, ambulance, and poison information center.
** Shandi will be adding these to the list of parent's phone numbers.
110.8 (1) c : Combustible materials are kept away from furnaces, stoves, gas dryers, or water heaters by a minimum of three feet.
** Paint needs to be moved away from the furnace/water heater at least 3 feet.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

We discussed safe sleep policies during todays visit.

Thank you for the service you provide to your community!
