CHILD CARE COMPLIANT

Complaint Details:

Did this complaint result in a serious injury? ☒ Yes ☐ No

Serious Injuries include:

- Disabling mental illness.
- Bodily injury which creates a substantial risk of death, causes serious permanent disfigurement, or causes protracted loss or impairment of the function of any bodily member or organ.
- Any injury to a child that requires surgical repair and necessitates the administration of general anesthesia.
- Includes but is not limited to skull fractures, rib fractures, metaphyseal fractures of the long bones of children under the age of 4 years.

Did this complaint result in a death to a child? ☐ Yes ☒ No

Summary of Complaint:

The Department received a complaint regarding a serious injury experienced by a toddler while in the care of provider Shawn Bohl.

Rule Basis and Findings of Complaint(s):

Rules:
110.7(1)a "Gives careful supervision at all times."

Findings:
A scheduled visit was conducted on 11/1/2023 with provider Shawn Bohl and with another HHS worker familiar with the incident.

- All parties agree that a child suffered a serious injury while in the care of Shawn Bohl.

- Shawn Bohl explained that she could not identify any incident with certainty that led to the injury. The child in question did not display any signs of immediate distress, crying, or fussing. Her best guess is that the injury occurred when the child was seen on camera climbing out of the crib during nap time. (Though did not present any signs of discomfort when provider placed him back in the crib.)

- Shawn explained how she was feeding an infant in another room when she saw the toddler crawl out of his crib on her camera monitor. She stated he had done this one other time while in care at her home.

- No evidence of red marks, bruises, or trauma were present on the child. No signs of improper discipline were present.

- Shawn explained that the child's father came to pick up the child before nap time was over. She actually woke the child early to have him ready for the father's pick-up. This could help explain why the provider hadn't seen signs of injury or fussiness from the child.

- I explained to provider that the injury to the toddler met the definition of "serious injury" and shared an Injury/Incident report form that needed to be emailed into the State. Shawn agreed to send in the report with the best information she could determine from the day of the incident.

CHILD CARE COMPLIANT

Resolution and Action Required:

All parties agree that a toddler suffered a serious injury while in the care of Shawn Bohl.

There is no evidence of intent or wrongful disciplinary practices. The injury appears accidental in nature.

The State has determined a degree of unintentional non-compliance with lack of careful supervision. The provider was aware the child had unsafely crawled from the crib on another occasion. A camera monitor is helpful, but does not replace more regular in-person supervision and/or changing the sleeping arrangement if a child is crawling from a crib.

No re-checks are planned with the provider at this time.
