Findings:

An annual compliance check was completed on 10/12/23 and the following was out of compliance:

441 IAC 110.8(1)“e” Annual laboratory analysis of a private water supply shall be conducted to show satisfactory bacteriological quality. When children under the age of two are to be cared for, the analysis shall include a nitrate analysis. When private water supplies are determined unsuitable for drinking, commercially bottled water or water treated through a process approved by the health department or designee shall be provided.
Her last Analysis was from September 2022 and she needs an updated one.

441 IAC 110.8(1)“h” The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes.
Lisa stated she was unaware she needed to test smoke detectors monthly and therefore did not have any documentation of such. This worker did provide her a form to use and noted she needs to keep the current year and previous year for inspection purposes.

441 IAC 110.9(1)“a” A physician’s examination report for the provider and all members of the provider’s household aged 18 years or older . Acceptable physical examinations shall be documented on Form 470-5152, Child Care Provider Physical Examination Report.
Lisa's husband needs an updated physical on the HHS approved form.

441 IAC 110.9(1)“b” (1) I-PoWeR records or certificates verifying required training completion:

Prior to registration:
minimum health and safety training, approved by the Department, in required content areas
Iowa’s Mandatory Child Abuse Reporter Training
Prior to registration: First Aid and Cardiopulmonary resuscitation. Provider shall maintain a valid certificate indicating date of training and expiration date.
Lisa could not locate her updated First Aid and CPR certificate. The one she had was expired.

441 IAC 110.9(4) Children’s Files. An individual file for each child shall be maintained and updated annually or when the provider becomes aware of changes. The file shall contain:

She needs one updated physical
Documentation list that is signed by the parent and names persons authorized to pick up the child. The authorization shall include the name, telephone number, and relationship of the authorized person to the child.
Written permission from the parent for the child to attend activities away from the child development home.
She was missing the consent form with this information for one of the children in her care.

We did discuss if she gives medications to the children in care. She reported she has not but we did discuss the process if parents do request her to give medications.

Suggestions/Recommendations:

Lisa needs an updated annual laboratory analysis of the private water supply shall be conducted to show satisfactory bacteriological quality. When children under the age of two are to be cared for, the analysis shall include a nitrate analysis.

Lisa needs to test each smoke detector monthly and keep a record of testing for inspection purposes.

Lisa's husband needs an updated physical and it needs to be on the HHS approved form. This worker did provide her a copy of the correct form to use.

Lisa needs to locate her updated verification of First Aid and CPR and needs to send pictorial verification to this worker.

Lisa needs to make sure she has all required documentation in her children's files to include getting one updated physical and the consent form for one child in her care.

Corrective Action Required:

A re-check is not needed at this time. Corrections need to be made by 10/31/23 and will be reviewed at the next annual compliance check. Please send pictorial verification of your First Aid and CPR training.
