Findings:

There were chemicals sitting on a shelf directly outside the front door where children enter the home. These need to be moved out of reach and secure from children.

The speaker cord in the infant area needs to be removed or tacked down to the wall, it was hanging loose from the floor area to the top of the wall. In addition the outlet in the infant area needs a cap in it.

The fire and tornado drills need to be completed and documented every month. You said you had completed the drills but missed documenting them.

The provider was using a rock n play for her own child to sleep without a doctor notice. She said she will get a doctors order that states time limits and specific diagnosis as to why the child needs to sleep in an inclined position.

Katherine and her husband Kevin, who is a sub need to take CPR and first aid training. Theirs expired in November or 2018. Katherine agreed to locate a training this week and get it scheduled as soon as possible.

The children's files need some work. She needed all documentation for 5 children. She needs updates to the information and emergency medical authorization for 3 children. In addition physicals &/or statement of health was needed for 6 children and immunizations were needed for 4
