	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Jana Drew **Date:** 12-05-2024

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

Visited the center on 11-08-24 and spoke with lead worker Elizabeth Munoz. Jennifer Ohrazda is the new onsite supervisor for this site. Ms Ohrazda has several years of experience working with children and oversees several BTB sites.. Ms Ohrazda was not present at the time of the visit so visited with Elizabeth Monoz lead staff member. Beyond the Bell Liberty is an before/after school program located in Liberty Elementary School. The program utilizes the lunchroom and the gym. The program is operated by the Beyond the Bell organization Monday through Thursday 6:30am to 8:30am & 3:30pm to 6pm. On Friday 6:30am to 8:30am & 1:30pm to 6pm. If they use this site for summer program then it would operate 6:30am to 6pm. The summer program rotates to different schools designated by the school. There is a buzzer outside the building to get into the school and the Beyond the Bell program. Staff meet people at the door to gain access to the program.

There are 39 children enrolled in the program. At the time of the visit only 20 children were present. All areas of the program were observed. The areas observed consisted of classroom activities, nutritional practices, health and safety practices, playground/gym observation, field trip and transportation practices, and administrative review. The before/after school program provides various group activities as well as individual self-directed activities for the children. The program started using the Playground App this year to help with administration duties.

The program divides the children up into two groups in the afternoon depending on their numbers for the day; PK to 2nd grade and 3rd to 5th grade and rotate them through the gym and lunchroom. The program has centers stored in totes in their storage area and set up different ones each day at tables throughout the lunchroom. The program has following activities/centers that the children can utilize: art, books, games, crafts, computers, puzzles and legos. Children have access to bathrooms. Daily schedule of activities was posted. The program had sufficient amount of equipment and toys for the children. Reminder to bring first aid kit out when outside and do monthly playground inspections.

Staff files will be reviewed at a later date as they are housed at the main office.

The school system provides breakfast, snacks and milk. Program follows CACFP guidelines for nutrition. Center needed updated medication papers for prn medication. First aid kit is sufficient to treat minor injuries, but need to take out when on the playground. Fire/tornado drills were documented each month. Program areas appear well maintained and free of any observable health or safety hazards. Radon and Furnace inspection was not available at the time of the visit. It is recommeded to put this information in the HHS binder for easy access documentation.

The center has a large fenced-in playground that they share with Liberty elementary school. Playground has climbing equipment and slides. Cushion squares surround the play equipment. Monthly playground inspection need to be completed. Shade is available on the playground. They also utilize the large gym.

Center Transportation Arrangements/Field Trips
School bus, however they have not done any field trips.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Center sends home a newsletter each month to keep parents aware of what is going on in the program.

The program is well organized.

Availability of enrichment classes with school teachers to improve academic skills.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.9(2)b: All files contain sufficient information and authorization to allow the center to secure emergency medical and dental services at any time child is in center's care.
Number not in compliance for dental: 1
Information lacking: Information was missing.

109.10(3): The center shall have written procedures for dispensing, storage, and authorization, and recording of all prescription and non-prescription medications.

109.10(9): First aid kit: The center shall ensure that a clearly labeled first aid kit that is sufficient to address minor injury or trauma is available and accessible to staff at all times when children are:In the center.In the outdoor play area.On field trips.

109.11(3)d: Record of monthly inspections of outdoor recreation area and equipment shall be kept.

109.11(7)b: Centers at ground level that use basement area as program space, or have a basement beneath program space: Testing and plan for remedy of radon is conducted.

109.11(7)c: All centers: Annual inspection prior to heating season of all fuel-burning appliances to reduce risk of carbon monoxide poisoning and shall install one carbon monoxide detector on each floor that conforms to UL Standard 2034.

V. SPECIAL NOTES/RECOMMENDATIONS:

Program needs to email consultant by 12-30-24 confirming that all aspects that are below standards have been corrected.

A full license is recommended at this time at this time.

At least one visit will be made to the center during the next year.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
