Dear Child Care Provider:

This letter is in regards to the compliance visit at your Registered Child Development Home B conducted on 02/06/2023. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. You are not a participant in the voluntary Quality Rating and Improvement System. The following areas were out of compliance at the time of the visit:

441 IAC 110.8(1)

Facility Requirements

441 IAC 110.8(1)“h” The home shall have at least one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway. Each smoke detector shall be installed according to manufacturer’s recommendations. The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes

Findings:

This worker arrived to the home and noted seven total children present. Of these seven children two are under 24 months and of these children one is under 12 months. Provider is within her allowed category B numbers. This worker completed a tour of the entire home and outdoor area. During the tour it was noted that Melissa needs smoke detectors in her living room and in her dining room areas as there is a ceiling height difference separating the rooms. Melissa sent this worker picture via text message of both detectors installed later in the day 2/6/2023. A complete review of files noted all items to be in compliance.

Suggestions/Recommendations:

Corrective Action Required:

No additional follow up is required.
