Findings:

This worker arrived at the home on 1/9/23 to find both providers present as well as David (assistant) and Evelyn (volunteer). There were nine children present on this day. Three children were under the age 2. They were in compliance with numbers and age ranges for category C.

A complete tour of the home was completed with the following noted:
1. The Fire extinguisher downstairs was not the approved size (at least 2A 10BC).

The outdoor area was observed with no hazards noted.

A full review of records noted some items needing updates:
2. Both Suzanne and Angie's First Aid and CPR had expired.
3. They did not have a certificate for David's updated mandatory reporter training that he reportedly took on 1/7/23.

In regards to the files for the children in care:
4. They were missing an updated physicals and immunization record for one child and missing an updated physical for a second child in care. The files were organized so this worker was able to look through them without much assistance from the providers, so they were able to tend to the children accordingly.

Suggestions/Recommendations:

1. The Fire extinguisher downstairs was not the approved size (at least 2A 10BC).
They did have the approved size upstairs where the children nap. While this worker was present they switched them out and put the larger one in the main area where they provide care and put the smaller one upstairs. They agreed to obtain a second one of the appropriate size for the main floor of the home.

2. Both Suzanne and Angie's First Aid and CPR had expired.
- they agreed to take the CPR and First aid training ASAP and submit documentation to DHHS accordingly.

3. They did not have a certificate for David's updated mandatory reporter training that he reportedly took on 1/7/23.
- they agreed to obtain the certificate and send to DHHS accordingly.

4. They were missing an updated physicals and immunization record for one child and missing an updated physical for a second child in care.
- They agreed to obtain the necessary paperwork and send documentation to DHHS accordingly.

You may contact your local CCR&R for further assistance if needed.

Corrective Action Required:
