Findings:

This worker completed an unannounced compliance check at this home on 9/7/22. Jennifer was present with 6 children.

During the compliance check this worker talked to Jennifer about documenting her fire and tornado drills that she practices. She states she has done them, but she forgot to document June, July and August.

When looking at the children's files, she was missing 3 physicals and 2 immunizations. She will remind the parents to bring them..

Suggestions/Recommendations:

**** These are general reminders. This does not reflect on the spot check that was completed.

- If you have a child that has allergies (other than seasonal), a written emergency plan must be completed. This plan is to accompany the child if away from the facility.
- Serious injuries and deaths must be reported within 24 hours.
- For each child under the age of 12 months that is present, you must have a crib or crib like furniture for safe sleep practices.
- No child should be allowed to start attending your childcare program until all paperwork has been completed by his or her parent and turned in to you.
- Each child in your care needs to have an updated medical statement or physical annually. All children's file information should be updated annually.
- The vet needs to inspect your pets annually and complete form 470-5153 showing your pet is free of endo and ecto parasites.
- Your private water supply needs to be tested annually.
- No one can be an assistant and/or substitute until you have received the letter from Child Care Registration indicating that person is approved.
- If you are having problems getting a certificate of immunization, the nurse consultant with CCR&R would be able to get this for you.
