Program Population Served:

- [ ] Infant(0<24 mos)
- [ ] Toddler
- [ ] PreSchool
- [ ] School Age
- [X] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

I conducted a compliance visit with Registered Child Development Home Category C-2 providers Robin Lacina and Whitney Stanton on 2/11/2026. Robin has been involved in child care for 25 years. They use both the main and lower level of their ranch style home. The main floor primarily for napping only, with the primary child care space in the basement. They have an egress window with a step system. The primary space was clean and clutter free. Robin has a large open back yard for outside play. They had 11 children in care during the time of my visit and have a total of 17 in care. (Multiple part time.) They have no current pets in the home. They have no HHS-approved assistants or substitutes. The children were working on a Valentine's Day project during my visit.

2. Identify Observed Strengths Of The Program

They describe their strengths as being organized and offering a good variety of activities, meals, and snacks. They describe their curriculum as mostly free play in the early morning with organized activities in the later morning that include puzzles, art, coloring, playdough, and holiday stuff. They stress lots of fine motor activities and learning toys. The children have regular outside time whenever weather permits. The primary child care space offers a pretty open floor plan with options of gates to divide areas for different age groups/activities. Robin and Whitney participate in the Food Program to enhance the nutrition of their meals and snacks.

3. Identify The Aspects That Fall Below The Standard

110.8 (1) g : Has not less than one 2A 10BC rated fire extinguisher in a visible and readily accessible place on each child-occupied floor.
- Robin and Whitney need to upgrade their main floor fire extinguisher to a size 2A 10BC.

110.9(1)b(1): Two hours of approved child abuse training and neglect mandatory reporter training.
- Robin's Mandatory Reporter training recently expired and needs to be renewed.

The above corrections need to be in place by 4/30/2026. No re-check is required, I will review the corrections during our next visit.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

N/A

5. Special Notes/recommendations

The 2026 targeted compliance for the Emergency Preparedness Plan was conducted. Their plan was in compliance and consistent with the current operation.

I encourage Robin and Whitney to work with Janey Schmitt from Child Care Resource and Referral with any ongoing compliance or training needs.
Janey can be reached at: (563) 286-0694

Robin and Whitney currently have no infants under 12 months of age. We reviewed safe infant sleeping for future reference.
