Findings:

Per the compliance visit conducted by this worker on 2/8/2023 the following corrections described in the above policy sections need to be completed:
1. Each child's emergency numbers need to be written on paper and easily accessible when necessary. A copy of these numbers need to be in the vehicle used to transport children in care.
2. You need to have a working fire extinguisher on the floors care is provided. The fire extinguisher you have indicates it is non-functional and needs to be replaced immediately.
3. During the compliance visit several of your smoke detectors were beeping, indicating the batteries need to be changed. The batteries need to be changed immediately.
4. When this worker arrived at the Child Development Home I observed Safe Sleep was not being practiced for an 8 month old in your care. At my direction you corrected the situation. I reviewed Safe Sleep Policy with you at that time. You have 2 appropriate Pack and Plays and 1 appropriate crib in the Child Development Home. The crib and pack and plays need to be utilized anytime a child 12 months and younger are sleeping. As communicated, this practice needs to begin immediately and continue at all times the child is sleeping.
5. You need to have a completed DHS Medical Physical completed by a medical professional described in the above policy section. This Physical needs to be in your provider file.
6. Your Child Development Home is not where you reside with your family. You need to call registration and update them on who is in the home where you provide child care services.
7. You have some of the required information in your child files regarding policies and consents. You need to also have medical information and documents for each child in care in each child file. I left a complete list of the required paperwork needed for each child in care.

You also asked if you could transport children to your residential home at night to provide overnight care. I called you back later that day after I consulted with management regarding this request. You are not able to use multiple households to provide care under your Child Development Home registration, all care needs to be provided in your approved Child Development Home.

Suggestions/Recommendations:

I encourage you to work with your Child Care Resource and Referral Worker (Kelsey Finke 515-246-3567) to make the above corrections and to address any other compliance or training efforts.

Corrective Action Required:

Unless otherwise noted the above corrections need to be completed by 4/13/2023 and will be checked on your next compliance visit.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Please do not hesitate to contact me at DHS at 515-601-9469/jaringd@dhs.state.ia.us if you have any questions regarding this letter.
