CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Lorena Dahl is opening her childcare business just outside of Casey Iowa. The provider has experience as a nanny. Her family also has fostered children in their home for a few years. The childcare space includes most of the home. There are two bedroom areas that will be used for nap time. There is an open area where the provider has a table and shelves set up for books and activities. The outdoor space will be getting a fence to section off the area that is for the childcare.

2. Identify Observed Strengths Of The Program

The provider and family are excited to start the childcare in their home and community. The provider is located between two school districts and there are buses that go by their home for school.

3. Identify The Aspects That Fall Below The Standard

The provider had all items ready for the pre-inspection and is able to be approved.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

2026 targeted compliance measure: Emergency Preparedness Plan. The provider has a completed EP plan that identifies planned actions for evacuation, shelter in place, lockdown, communication and reunification. The plan also addresses continuity of care in the event of a disaster at the location of the childcare.
