Dear Child Care Provider:

This letter is in regards to the compliance visit at your Registered Child Development Home B conducted on 02/15/2024. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. You are not a participant in the voluntary Quality Rating and Improvement System. The following areas were out of compliance at the time of the visit:

441 IAC 110.8(1)	**Facility Requirements**
441 IAC 110.8(1)“e”	Annual laboratory analysis of a private water supply shall be conducted to show satisfactory bacteriological quality. When children under the age of two are to be cared for, the analysis shall include a nitrate analysis. When private water supplies are determined unsuitable for drinking, commercially bottled water or water treated through a process approved by the health department or designee shall be provided.

Findings:

1. 110.8(1)e The provider has not had the family's well-water tested since 8/25/2022.

Suggestions/Recommendations:

A re-check is not needed at this time, corrections need to be made by 3/1/2024 and will be reviewed at the next annual compliance check.

I encourage you to work with Karen Lauer from Child Care Resource and Referral with any ongoing compliance or training needs.

Karen can be reached at: 641-820-1922.

Corrective Action Required:

1. The provider needs a current annual laboratory analysis showing satisfactory bacteriological quality.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Please do not hesitate to contact me at DHS at 319-800-4702 or hbailey@dhs.state.ia.us if you have any questions regarding this letter.

Sincerely,

Holly Bailey
