II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

Visited Beyond the Bell Riverside on 02-10-23 and spoke with Kayla Stenwall lead worker for Riverside School Jenny Ohrazad, onsite supervisor was not present. Ms Ohrazda has several years of experience working with children at Beyond the Bell program. Ms Ohrazda also supervises several other Beyond the Bell schools. Jenna Andrews is the director. Beyond the Bell Riverside is an after school program located in the Riverside Elementary school. The program utilizes the gym/lunch room. The gym can be partitioned to create two rooms. The program is operated by the Beyond the Bell organization Monday through Friday 6:30am to 8:30am & 2:30pm to 6pm on Mondays and 3:30pm to 6pm Tuesday thru Friday during the school year. The program serves preschool and school age children. There is a buzzer outside the building to get into the school and the Beyond the Bell program. Staff meet people at the door to allow access to the program. The program has been open since 2006.

There are 33 children enrolled in the program. At the time of the visit there were 21 children present. The center is following all guidelines put forth by DHS regarding the corona-virus and doing everything they can to support their staff and families. The center has been cleaning toys that children use. The gym/lunch room had two staff and 21 children during this visit. The program has following activities/centers that the children can utilize: science, math, books, art supplies, manipulatives, board games, puzzles and legos. Sufficient amount of toys and equipment for the number of children. Daily schedule of activities was posted. During this visit observed the children participating in self-directed center activities. The children have access to enrichment/tutoring classes whereby they spend time with school teachers to improve academic skills and then return to the after school program. Room has access to bathrooms. Observed the staff conversing with the children throughout the program, assisting children with activities and reminding the children about rules. This program sets up tables with various activities for the children. Good interaction with the children throughout the day. Staff are involved with the children and has good interaction with them.

Children's personal belongings need to be separated and not put in piles to avoid any cross contaminations.

Staff files are located at the main office and will be reviewed at a later date.

Snacks and breakfast are provided through the Sioux City School system. Program follows CACFP guidelines for nutrition. Center currently does not administer any medication, but has med administration training if needed. Staff have children wash hands before eating breakfast or snacks. Fire/tornado drills are complete. Furnace inspection was not available at the time of the visit and needs to be completed. Radon test also needs to be completed.

Center Playground
The program has access to the large fenced-in school playground or they use the gym. The playground has rubber tiles around the equipment. The playground has climbing equipment and slides in the playground area. The school maintains the playground. Shade is available on the playground. Due to inclement weather playground review will need to be completed at a later date.

The center utilizes the school buses if they take any field trips, however, they are have not doing any field trips due to lack

of staff.

Goals of the program: to continue to update their toys; and add more craft activities as well as increase their enrollment. More qualified staff.

Strengths: Kayla felt she has a good relationship with the kids and their families as well as with the school.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Center emails a newsletter each month to keep parents aware of what is going on in the program.

The program also uses the remind app to communicate with their families.

Center has a QRS rating of four stars out of a 5 star rating.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.11(3)a: Center shall ensure that: Facility and premises are sanitary, safe, and hazard free. Adequate indoor and outdoor space is provided. The outdoor area shall include safe play equipment and area of shade. Sufficient space provided for dining. Sufficient lighting shall be provided. Sufficient ventilation. Sufficient heating. sufficient cooling. Sufficient bathroom and diapering facilities. Equipment, including kitchen appliances, are maintained so as not to result in burns, shock, or injury to children. Sanitation and safety procedures for the center are developed and implemented to reduce risk or injury or harm to children and reduce transmission of disease.
Program needs to ensure that the children's belongings are not thrown in a pile but separated from each other for healthy reasons.

109.11(7)b: Centers at ground level that use basement area as program space, or have a basement beneath program space: Testing and plan for remedy of radon is conducted.

109.11(7)c: All centers: Annual inspection prior to heating season of all fuel-burning appliances to reduce risk of carbon monoxide poisoning and shall install one carbon monoxide detector on each floor that conforms to UL Standard 2034.

V. SPECIAL NOTES/RECOMMENDATIONS:

It is recommended to update the program's Emergency Preparedness Policies as last updated was in 2021.

Please provide a email licensing consultant confirming that those aspects that fall below standards have been corrected by 03-10-23.

A full license will remain in effect at this time.

At least one visit will be made to the center during the next year.
