Licensing Consultant: Maggie Gibson, SWIV **Date:** 10-31-2024

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An unannounced off-year visit was completed 10/31/24. Director, Kathy Bovee was present through the entire visit.

Our Lady's Little Learners Preschool program started in 2003 and is located in Our Lady's Immaculate Heart Catholic Church in Ankeny. The church owns the preschool and assists financially. Kathy Bovee became the director in June, 2024; and had been with OLLL for 13 years prior as a classroom teacher as well. She meets the qualifications to be the director.

The classroom doors are kept locked when preschool is in session.

The preschool uses three classrooms for several session of pre-school. Children must be between three and five years old to attend. Morning classes meet from 8:30-11:00 am, and afternoon classes meet from noon-2:30 pm. The three year old children can attend two or three days a week, the four year old children can attend three or five days a week, and the pre-k children meet five days a week. The preschool also has access to the use of the gymnasium which allows them to do large motor play indoors.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, nutritional practices, health and safety practices, playground observation, field trip and transportation practices, and administrative review.

Room Observations/Activities: The center has created their own curriculum based on Iowa Early Learning Standards with a faith base component. The rooms are in ratio and staff were observed to maintain structure. The staff were consistently observed to be engaged in leading group activities and to be responsive and nurturing with the children. This center offers a good variety of age/developmentally appropriate play centers and toys. Classroom were very nicely organized and clean. One handwashing poster was missing but this was likely due to the moisture in the restroom; as all other posters were as required.

Nutrition practices: The center has access to the Church's kitchen, however it is rarely used. The program does not provide lunch, the parents provide snacks items/lunch. Snack times are used to increase group "intentions" (interactions/processing) with staff.

Health and Safety: Medication, when required, is stored securely; Emergency medications are securely stored in the classrooms for easy access. There is a first aide kit in all rooms along with an AED on the property. Emergency plans are posted as required. Fire/Tornado drills were documented to have been completely monthly as required. Radon was completed 12/2022 and below the 4.0 cutoff. HVAC is maintained by the church.

Playground: Playground safety checks were documented to have been completed monthly. During the winter season, the program has access to the indoor gym for large motor play. There is an outdoor play area enclosed by chain link fencing with smaller play equipment/toys.

Transportation/Field Trips: NA

Administrative review: Information regarding mandatory reporter, Handbook accessibility, Consultant contact, License, fire/tornado plans and no-smoking signs were posted as required. Six child files were reviewed and all contained the required information; Three employee files were reviewed and all contained the required information. This center has an established policy.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

All staff work very well together as a team. The staff and the Director meet every morning prior to class to discuss their planned day and support each other; they end with a teacher's prayer. This has helped with cohesiveness and grounding staff for the day, in addition staff feeling support from each other.

The staff are invested in the preschool and are happy to be at the preschool.

The center has a website and a Facebook page. Emails are sent to the parents with updates as well as a weekly newsletter from the teachers. The preschool has started using a new App which assists with communication with parents.

The staff have weekly meetings.

All lead teachers have a teaching degree or a four year degree. Every classroom has a licensed teacher.

The center has a secure entrance.

The preschool has developed a strong relationship with Heartland AEA.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

There were not aspects of operation that reviewed that fall below standards reviewed.

V. SPECIAL NOTES/RECOMMENDATIONS:

The last test was completed in December 2022 and all fell below the 4.0 cutoff level.

The annual furnace/boiler inspection is completed every winter and is completed by the church.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
