- [ ] Non Registered Child Care Homes accepting CCA

Program Population Served:

- [ ] Infant(0<24 mos)
- [ ] Toddler
- [ ] PreSchool
- [ ] School Age
- [X] All Ages

1. Basic Overview

Korene has been providing child care for approximately 32 years. Korene is available for care for first shift families with children aged infant through school age. Korene has a play based environment for children that includes free play and going outside when possible.

2. Identify Observed Strengths Of The Program

Korene has an assortment of toys and activities for children in care of all ages. Korene maintains her needed compliance paperwork in a binder which makes it easy for her to locate required items during compliance visits. Children in Korene's care seem to respond to her very positively, approaching her regularly with questions or if arguments occur between

CHILD CARE ANNUAL EVALUATION

children in care.

3. Identify The Aspects That Fall Below The Standard

110.6 : No more children are in care than the number authorized on the registration certificate.
110.7 (1) d : Is present at all times, except if emergencies occur or an absence is planned.
If absence is planned, care is provided by a DHS-approved substitute.
110.8 (1) h : Has a minimum of one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway.
110.9 (4) e : For infants and preschoolers: A statement of health signed by a physician submitted annually.
110.9 (4) g : A signed and dated immunization certificate provided by the state Department of Public Health.
110.14 (1) a : Not more than eight preschool children present at any one time including infants.
110.14 (1) e : When more than 8 children are present for more than 2 hours, a DHS-approved assistant at least 14 years old is present. unless extra children are present as a result of an emergency school closing

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

Korene had 9 children in care upon arrival. Korene was not present and had left her daughter in charge of the children. Korene's daughter Sasha is not currently an approved substitute or assistant within Korene's child development home. A safety plan was completed with Korene when she returned to the home regarding being over capacity and having an unapproved individual watching the children.

Korene had one smoke detector that was not working at the top of the basement stairwell. Korene contacted this worker after the visit stating that the detector was working.

In a review of child files, Korene had a few children that needed updated physicals and immunization certificates.

Korene will contact the CCA Unit to get her daughter approved. Korene is going to approve her as an assistant only and understands that assistants are not allowed to be alone with children ever.

Korene texted this worker following the visit and stated that she had contacted the CCA Unit about adding her daughter. Korene is awaiting a return phone call.

5. Special Notes/recommendations

Targeted case compliance of Emergency Preparedness Plan completed. Plan remains accurate and up to date.

This was a combined annual compliance visit and complaint visit. Concerns reported that Korene makes children provide their own food. Korene denies this stating parents are given flexibility and allowed, but not required, to bring food. This is addressed further in a separate complaint report.
