Findings:**Findings:**

This worker arrived at the home on 5/31/23 around 9:30am to find 3 child care children present and playing in the living room area. (along with the provider's adult daughter and her two children who were visiting for a short time). Melissa does at times watch her two grandbabies but was not caring for them on this date. Melissa was in compliance with her numbers and age ranges for category B.

A complete tour of the home was done and the following was noted:

- Melissa did not have a non-smoking sign posted at her back door. (These need to be at every entrance.)

The outdoor area was observed with no hazards noted.

A full review of records noted some items needing updates:

- Melissa could not find her own physical and immunization record.
- Melissa could not find her daughters Erin's physical and immunization record that is needed as both a household member and as her assistant.
- Melissa could not find her daughter Elizabeth's physical and immunization record that is needed as her substitute.
- Melissa could not find verification of her most recent CPR and First Aid training.

This worker reviewed three files for the child care children present on this date and the two additional files for Melissa's grandbabies whom she cares for at times with the following was noted:

- Melissa needs to obtain one updated physical for one of the children in her care. Aside from that, her files were nicely organized.

Suggestions/Recommendations:

- Melissa needs to obtain and post a non-smoking sign at her back door.
- Melissa needs to locate her own physical and immunization record and send verification to this worker..
- Melissa needs to locate her daughters Erin's physical and immunization record that is needed as both a household member and as her assistant and send verification to this worker..
