CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Hannah Dierks is a new registered provider working with HHS. Her background includes working at a childcare center for four years while she was in high school. She has been providing childcare in home for almost a year. The childcare is based on the main floor of the home. There is a living room, kitchen-eating area and a playroom that is accessible to the children. The provider has toys and activities for all ages of children available. During the visit, the provider had five children in her care. She has three preschool aged children and two school aged children. She reported that they have free play throughout the day. She will have crafts and activities available for the older children. There is a large yard with the property for the children to run and play.

2. Identify Observed Strengths Of The Program

Compliance staff observed the provider with the children during the visit. The provider remained interactive with the children while speaking with compliance staff. The provider has a calm demeanor and she actively engaged the children by sitting on the floor and playing with the younger children. The rain on this date spoiled their outdoor plans, but they are adapting to find alternate things to do.

The provider has a weekly theme for the childcare. This week it is plant week. They have decorated pots and made pictures with tissue paper. Past weeks the provider has done with the children include fruits and animals.

3. Identify The Aspects That Fall Below The Standard

The provider met all pre-inspection standards to become registered.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

2026 targeted compliance measure: Emergency Preparedness Plan. The provider has a completed EP plan that identifies planned actions for evacuation, shelter in place, lockdown, communication and reunification. The plan also addresses continuity of care in the event of a disaster at the location of the childcare.
