CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Mary Noel is a CDH Category B provider, living in Pleasant Hill. She has been a registered daycare provider since 2018. Mary Noel lives in a basement apartment. She uses the whole basement area for her childcare operations. Her basement is a walkout.

2. Identify Observed Strengths Of The Program

Mary Noel was organized for our compliance check. Mary had 8 children present during our compliance visit, ranging in ages 3 months old to 5 years old. She was able to locate trainings for me. Mary said the children like to color, count, work on their ABC's, play with toys, work on sight words and sing songs. Mary uses timeout for discipline. We reviewed all safe sleep regulations. Mary had pack and plays for infants to sleep in. Since Mary's child care operations is located in the basement she uses the bathroom for her tornado drills. No windows in the bathroom. Mary has a large fenced in backyard with playsets and outdoor toys for children to play with. All parents have a door code and are welcome to come into the daycare at anytime.
