	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Jana Drew **Date:** 02-14-2023

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

Visited center on 02-13-23 spoke with Amber Hanson director and Nicki Rolling - onsite supervisor. Ms Hanson has a degree in elementary education with a early childhood endorsement. She had done in home childcare for 4 years. She also worked for 7 years with the headstart program. Nicki also has an elementary education degree and is the preschool teacher for the center. Little Rascals Preschool and Childcare is located at the previous St. George's Preschool which is located in one room of St George's Episcopal Church in LeMars. The center operates Monday thru Friday 7:00am-5:30pm. The preschool program is part of the Statewide Preschool Voluntary Program(SWVPP). They provide childcare before and after preschool. The center serves children ages 3 years to 6years(first grade). Center is added another room to the center to increase their capacity. Capacity was increased from 24 to 33 effective 06-15-21. Center is only serving 3-9 year old children.

There are 49 children enrolled in the program. There were 14-4 year old SWVPP and 14 in the 3 year old preschool program at the time of the visit. The center continues in following all guidelines put forth by DHS regarding the corona-virus and doing everything they can to support their staff and families. The center has been cleaning toys that children use. Sufficient amount of toys and equipment for the number of children. Daily schedule of activities was posted. Displayed throughout the room were colors, shapes, picture schedule for the children, job chart, children's artwork and the alphabet. The center utilizes Creative Curriculum and Gold assessments. The program has received grant money to expand an area to increase capacity from 24 to 33. However, the remodeling has been slow. They have just completed the extra room and put in new flooring. They are still waiting for the bathrooms to get updated, washer/dryer installed, painting done, new dishwasher, stove, new kitchen counter tops, outside cement work completed to include a ramp and a slab for an outside play area. Center has started using the Bright Wheel app to help with administrative activities as well as to communicate with parents.

Center Nutrition Practices Observed
Snacks are provided by the center. The center follows the food guidelines but are not currently on the food program. Food storage is appropriate. The Center follows the CACFP guidelines.

Center Health & Safety
Medication is stored in a lock box or out of reach of the children. Center needs to make sure that any meds have not expired prior to giving to child. Tables are sanitized prior to children eating. Observed good hand washing procedures by staff and children. First aid kit is sufficient to treat minor injuries. Fire/tornado drills are documented each month. Radon test was completed for one room and was within normal range. Center needs to do radon testing in all child occupied rooms. Annual heating inspection needs to be completed. Good sanitary procedures are followed. Center has a functioning carbon monoxide detector. All program areas were observed to be clean and well maintained. Good health and safety policies /procedures are in place.

Center Playground
The center has a fenced grassy area for their playground. They would like to continue to add to the playground. They are wanting to put in a cement slab for kids to ride on and a shade structure when the weather permits. Gate on fence was broke

and also needs to be fixed.

Center Transportation Arrangements/Field Trip
Center does not transport. Field trips for the preschool only would use the school bus to transport or they may walk to various businesses or park.

Strength of the program are that staff work great as a team, they have support of the school system, as well a good relationship/communication with the children and families they serve. For hiring new staff the center continues to use social media, CLEM-radio or word of mouth.

Goals of the center are to finish renovations, update their playground. The center is working on getting on IQ4K program by June 2023.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Center sends home a monthly newsletter to the parents. The center also uses Bright Wheel app to communicate with families.

Center does conferences 2x year.

Children's toys are at their level and accessible.

Center has child size furniture throughout the area.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.9(2)b: All files contain sufficient information and authorization to allow the center to secure emergency medical and dental services at any time child is in center's care.
Number not in compliance for dental: 1
Information lacking: Information was missing.

109.10(1)a: Preschool (for children five years and younger not enrolled in school): Physical exam report submitted within 30 days of admission, was obtained no more than 12 months prior to admission, is signed by a licensed MD, DO, PA, or ARNP, and contains health history; present health status including allergies, medications, and acute/chronic conditions; and recommendations for continued care if necessary.
Number not in compliance: 1

109.10(3)c: For ongoing, long term medications, authorization shall be obtained for a period not to exceed the duration of prescription.

109.11(7)b: Centers at ground level that use basement area as program space, or have a basement beneath program space: Testing and plan for remedy of radon is conducted.
Radon needs to be completed in all child occupied rooms.

109.11(7)c: All centers: Annual inspection prior to heating season of all fuel-burning appliances to reduce risk of carbon monoxide poisoning and shall install one carbon monoxide detector on each floor that conforms to UL Standard 2034.

V. SPECIAL NOTES/RECOMMENDATIONS:

Please email consultant by 03-31-23 confirming that all aspects that fall below standards have been corrected.

A full license will remain in effect at this time.

At least one visit will be made to the center during the next year

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
