[X] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Crystal has recently moved to a new address. Crystal is available to provide care to children aged 1 years of age through school age. Crystal is available for all three shifts of care Mondays through Fridays. Crystal will consider Saturday care on a case by case basis. Crystal provides a play based environment for children in her care. Crystal works with children on color, number, and letter recognition. Crystal also offers crafts and other activities for children.

2. Identify Observed Strengths Of The Program

Crystal believes her greatest strength in working with children is her high level of patience. Crystal has been told that she has a comforting effect on children in her care. Crystal communicates well with parents regarding their children's individual needs. Crystal has a nice space in her basement for children to play and learn. Crystal is working on the physical set up of the area. Crystal currently has a 'gaming' or quiet corner in place. Crystal also has a separate room the children will eat in and do crafts and art activities. Crystal has a large assortment of age appropriate toys for all ages and stages of development. Crystal is a participant in the CACFP food program for child care providers.

3. Identify The Aspects That Fall Below The Standard

110.8 (1) h : Has a minimum of one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway.
Each smoke detector has been installed according to manufacturer’s recommendations.
110.8 (3) a : All medicines and poisonous, toxic, or otherwise unsafe materials are secured from access by a child.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

Crystal needed a smoke detector in one of the rooms in the basement she will be using for care.
Shortly after the visit, Crystal texted this worker a picture of the installed smoke detector in the play room. Nothing further required.

Crystal has hazardous items under her kitchen sink upstairs. Although the upstairs will not be utilized for child care, the children will have to walk past this area when heading to the basement. For that reason, it was determined that Crystal needed a child lock on that cabinet to prevent children from accessing items stored there.
Shortly after the visit, Crystal texted this worker a picture of the installed child lock on the kitchen cabinet. Nothing further required.

Crystal's change of address/ pre inspection will be approved.

5. Special Notes/recommendations

Targeted compliance of Emergency Preparedness Plan completed. Crystal updated the plan for her new address.

CHILD CARE ANNUAL EVALUATION

HHS Child Development
Home Compliance Worker: Kathy Huinker Date: 9/17/2026

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Child Care Resource and Referral is an excellent resource for providers to access training options and support in your area.
