Findings:

An annual compliance check was completed on 6/7/24 and the following was out of compliance:

441 IAC 110.8(1)"b" Electrical wiring shall be maintained, and all accessible electrical outlets shall be tamper-resistant outlets or shall be safely capped. Electrical cords shall be properly used. Improper use includes running cords under rugs, over hooks, through door openings, or other use that has been known to be hazardous.
There were a few outlets in the upper play area that were not capped.

441 IAC 110.8(1)"h" The provider shall test each smoke detector monthly and keep a record of testing for inspection purposes.
Leah did not have any documentation of this.

41 IAC 110.8(1)"n" Providers shall inform parents of the presence of any pet in the home.
Each dog or cat in the household shall undergo an annual health examination by a licensed veterinarian. Acceptable veterinary examinations shall be documented on Form 470-5153, Veterinary Health Certificate. This examination shall

verify that the animal's routine immunizations, particularly rabies, are current and that the animal shows no evidence of endoparasites (roundworms, hookworms, whipworms) and ectoparasites (fleas, mites, ticks, lice).

Leah did have a pet exam for one of the dogs. She did not have an annual pet exam for the second dog. It should be noted that Leah did not have that at the time of her Pre-Inspection last year and she had stated she would give the dog to the neighbor, so she was approved at the PI despite not having that required documentation. However, she took the dog back and had not established the appropriate paperwork. She shared today that she still plans to rehome the dog and we discussed that she needs to let me know by 6/14 her plan if she will keep the dog, she needs to obtain the appropriate paperwork and if she plans to relocate the dog, she needs to follow through with that as stated.

441 IAC 110.8(1)"q" The provider shall have written policy and procedures for responding to health-related emergencies

Leah could not locate this.

441 IAC 110.8(3)"a" All medicines and poisonous, toxic, or otherwise unsafe materials shall be secured from access by a child.

There were some chemicals under the bathroom sink in the upper level of the home, not secured from access of the kids. There were also some medicines that needed to be moved to a higher level. Leah did move those items while this worker was present.

441 IAC 110.8(3)"b" The First Aid kit shall, at a minimum, include adhesive bandages, bottled water, disposable tweezers, and disposable plastic gloves.

Leah did not have the required water bottle. She did add that while this worker was present.

441 IAC 110.8(3)"c" Medications shall be given only with the parent's or doctor's written authorization. Each prescribed medication shall be accompanied by a physician's or pharmacist's direction. Both nonprescription and prescription medications shall be in the original container with directions intact and labeled with the child's name. All medications shall be stored properly and, when refrigeration is required, shall be stored in a separate, covered container so as to prevent contamination of food or other medications. All medications shall be stored so they are inaccessible to children. Any medication administered to a child shall be recorded, and the record shall indicate the name of the medication, the date and time of administration, and the amount given.

Leah indicated at times she does give medications but has not documented that accordingly.

441 IAC 110.8(3) "d" The provider shall establish procedures related to infectious disease control and handling of any bodily excrement or discharge, or blood. Soiled diapers shall be stored in containers separate from other waste.

Leah has not stored diapers or items with blood in a separate container. We discussed this expectation.

441 IAC 110.9(1)"a" A physician's examination report for the provider and all members of the provider's household aged 18 years or older . Acceptable physical examinations shall be documented on Form 470-5152, Child Care Provider Physical Examination Report. All children residing in the household must have medical documentation outlined in 110.9(4) "d", 110.9(4) "f", and 110.9(4) "g"

Leah could not locate the updated physicals for her own children.

441 IAC 110.9(1)"b"(2) Documentation from the department confirming the record checks required under 441 IAC 110.11(3) have been completed and authorizing or conditionally limiting the person's involvement with child care.

Leah could not locate this documentation

441 IAC 110.9(2) An individual file is maintained for each staff assistant and contains:

A completed Form 470-5152, Child Care Provider Physical Examination Report. Certification of two hours of approved training related to identification and reporting of child abuse as required by Iowa Code section 232.69 within 3 months of employment.

Leah's assistant is Debra but Leah could not locate the current documentation approving her as an assistant and her Mandatory Child Abuse Reporter training had expired.

441 IAC 110.9(4) Children's Files. An individual file for each child shall be maintained and updated annually or when

the provider becomes aware of changes. The file shall contain:
