Program Population Served:

- [ ] Infant(0<24 mos)
- [ ] Toddler
- [ ] PreSchool
- [ ] School Age
- [X] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

I conducted a random compliance check with Registered Child Development Home Category B provider Destiny Pattschull on 7/23/2025. Destiny has been approved as a child care provider through the State since April of 2018. Destiny has a ranch style slab home, so only one level being used for child care. Destiny had 6 countable children present during the time of my visit. She currently has an exception to policy to have a 9th child present with no assistant through the summer. Destiny recently added a second substitute/assistant to her registration. She has not started using her until she has completed the required trainings. (Still within 90 days of approval.)

2. Identify Observed Strengths Of The Program

Destiny provides valuable services to the community. In addition to her child care services, she and her husband are also approved foster care providers. Destiny and I reviewed that foster care placements need to be carefully evaluated as they can contribute to the number of countable children she has in care. The children were actively engaged in a coloring activity during my visit. Though a busy environment, the children responded well to Destiny's direction. Destiny reports currently working with Julia Green from Child Care Resource and Referral on her application to the IQ4K program.

3. Identify The Aspects That Fall Below The Standard

Any medication provided to a child shall be recorded indicating the name of the medication, date, time, and amount given.

Destiny currently administers medication to 2 children in her care. She has the proper parent signed medication sheet uploaded to her Playground on-line child files, however, is missing the daily recorded tracking of the actual dates/times/amounts of medication given. We reviewed that she actually needs to track and record the doses of medication given daily. I suggested that she print a blank form, hand enter the medication doses, and then upload the sheet into her Playground file once the sheet is full and start a new blank form. Destiny needs to start recording medication doses on a daily basis right away. I will review the tracking sheets during her next visit.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

N/A

5. Special Notes/recommendations

I encourage Destiny to work with Julia Green from Child Care Resource and Referral with any ongoing compliance or training needs.
Julia can be reached at: (515) 202-1830

Destiny has no current infants under 12 months of age. We reviewed safe infant sleeping policies and rules should she accept an infant in the future.

Note - Destiny has a 4 foot above ground pool in her back yard. The pool has non-climbable sides and had a locked-access device covering the ladder during the time of my unannounced visit. Destiny reports the pool is for her own family only, and no use by child care children. We talked about the careful supervision necessary around her outside play area and the pool even with the locked ladder access.

CHILD CARE ANNUAL EVALUATION

HHS Child Development
Home Compliance Worker: Earl Crow Date: 7/23/2025

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.

Child Care Resource and Referral is an excellent resource for providers to access training options and support in your area. You can reach Child Care Resource and Referral at
