CHILD CARE ANNUAL EVALUATION

1. Basic Overview

A compliance visit was conducted on 11/3/25 to Brandy's "C1" child development home. Brandy reports has been a registered provider since 2002. Prior to that she had worked in a center and doing child care with her sister. She reports that she has somewhat of a schedule that includes activity program, circle, craft and learning. She reports that although she allowed 8 full time and 4 before/after school children, she likes to keep her full time to 7. Her hours are 6:30-5:30 M-F and she accepts child care assistance.

2. Identify Observed Strengths Of The Program

Brandy has a nice set up downstairs where she provides her child care. It was observed to be clean and free from hazards. She is organized as evidenced by her files. She was observed to multi-task, meeting the children's needs while participating in the compliance visit. The children appeared to be comfortable with Brandy, with one child coming over to give her affection and sit with us at the table. Brandy reports that some of her strengths include her experience. She reports being patient, and enjoys working with the children doing activities and learning in order to be ready for kindergarten.

3. Identify The Aspects That Fall Below The Standard

Brandy was found to be in full compliance.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

During our visit we discussed safe sleep and discipline practices.

Thank you for the service you provide to your community!
