- [ ] School Age
- [X] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Misty McCoy has been providing childcare services for over 22 years. The provider is a level 4 IQ4K rated provider. We discussed the level 4 activities. The provider reported that she has had community services out to visit with the children. The fire truck came one time, a police officer and a dental office worker. These visits helped to inform the children and also gave them hands-on opportunity. There were eight children in care at the time of the visit. One child was napping while the others were all playing as they had just finished lunch. The childcare is located on the lower level of the home. The space includes a large play area, a large sleeping area and dining/kitchen area. The play area has stations set up for the children. The provider has a free play atmosphere. She does have some structured time daily. She will do circle time with the children in the morning and will have activities available. They play outside a lot when the weather cooperates. The outdoor space has a lot of room to run and ride on toys. There is a good sized play area. When they cannot go outside, she will set up activities to encourage movement.

2. Identify Observed Strengths Of The Program

Compliance staff observed the interactions between the provider and children. The provider interacted with all of the children during the visit.

The provider consistently used redirection with the children as it was necessary. The provider talked calmly and used statements like,

The provider reported that normally one of her assistants is at the home with her. They will split up the children into smaller groups and play games or learning lessons. She showed compliance staff a binder that she made with numbers and letters. Learning pages for the children to look at and write on with expo markers.

3. Identify The Aspects That Fall Below The Standard

The provider was in full compliance with regulations standards.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

2026 targeted compliance measure: Emergency Preparedness Plan. The provider has a completed EP plan that identifies planned actions for evacuation, shelter in place, lockdown, communication and reunification. The plan also addresses continuity of care in the event of a disaster at the location of the childcare.
