Findings:

1. 110.8(1)r The provider does not have her registration certificate displayed in a conspicuous place.

2. 110.8(3)a The provider does not have a lock under the bathroom sink and some cleaning items (toxic) are stored there.

3. 110.8(5) Safe Sleep
The provider is caring for a new infant and does not have an appropriate sleeping area for the child. The child's parent provided a mat for the floor, which does not follow safe sleep guidelines. The infant was not sleeping during the compliance visit.

4. 110.9(1) Provider File:
-a. The provider was unable to locate her physical during the compliance visit.
-b(1) The provider was unable to locate her first aid/cpr certificate during the compliance visit.

5. 110.9(4) Children's files:
-The provider needs current physicals/statements of health for all children's files.
-The provider needs signed immunization certificates for all children's files.

Suggestions/Recommendations:

1. The provider needs to display her registration certificate in a conspicuous place.

2. The provider needs to add a child-proof lock under the bathroom sink where some toxic cleaning supplies are stored. (completed, verified by text photo)

3. The provider needs to review safe sleep guidelines and have an approved sleep space for the infant she cares for. (SW Bailey made a referral to CCR&R and CCNC. The provider was cooperative with the supports and now has an approved sleep space for the infant in care.)

4. The provider needs to have a copy of her current physical and First Aid/CPR certificate available.

5. The provider needs to update children's files and confirm they all have current physicals and immunization certificates.

Corrective Action Required:

A re-check is not needed at this time, corrections need to be made by 12/18/2023 and will be reviewed at the next annual compliance check.
