- [ ] Non Registered Child Care Homes accepting CCA

Program Population Served:

- [ ] Infant(0<24 mos)
- [X] Toddler
- [X] PreSchool
- [ ] School Age
- [ ] All Ages

1. Basic Overview

JaSi Bartles has provided childcare services for over 26 years. She reported that her age group is over 1 and has children until they start school. She had six children in care on this date; two were gone today. When compliance staff arrived the children were playing in the living room. They started asking questions of compliance staff. Then they showed compliance staff the books that the provider was making for each of them. The provider reported that she has been putting books together for each child. The covers are brightly colored with the child's name and a favorite character like a dinosaur or a unicorn. The pages inside are blank, but those are for the children to use for their creativity. Some of the books had pages with coloring in them, some pages had letters written. The childcare expands through part of the main floor. The children use the living room and a bedroom area for play. The children have bins of toys to choose from for play while they are inside. The outdoor play yard is a fenced in area of the front yard with toys for riding and climbing.

CHILD CARE ANNUAL EVALUATION

2. Identify Observed Strengths Of The Program

Compliance staff observed the provider with the children during the visit. The children readily approached the provider and asked for help. The provider talks to the children on their level. If there is a need for discipline, a child will sit near the provider and think about what happened. Then they will talk about the situation and what to do next time.

The provider is very personable with each child. She treats each child as if they are related to her. The provider usually has some sort of music on. The children will hear this during play time or if they dance to get the wiggles out. She likes to get the children outside as much as possible. She also likes working having age appropriate crafts for the children to have. This is part of the reason for the personalized books, so that they can draw and write in something that is all their own.

3. Identify The Aspects That Fall Below The Standard

110.8 (4) b : Procedures are in place for: Evacuation to safely leave the facility Relocation to a common, safe location after evacuation, Shelter-in-place to take immediate shelter where the child is when it is unsafe to leave that location due to the emergent issue, Lock down to protect children and providers from an external situation, Communication and reunification with families, Continuity of operations, and Procedures to address the needs of individual children, including those with functional or access needs.

**The provider was unable to locate her emergency preparedness plan. We discussed what she recalled about the plan. A word document was emailed to the provider so she can fill this out to have her plan available. Please email a copy of the plan to compliance staff or send pictures of the pages by July 29, 2026. Please reach out if you need any assistance.

110.9 (1) a : Within six months of becoming registered, a physical exam report documented on form 470-5152, Child Care Provider Physical Examination Report, for all household members over the age of 18. Physical exams should be repeated every three years.

**The provider has an expired physical. Please update your physical as soon as possible. This will be reviewed at your next compliance visit.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

The 2026 targeted compliance measure was not met. Remember to complete the EPP form that was sent to you and return to compliance staff by July 29, 2026.
