	DENIAL of initial application
	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Nate Knepper **Date:** 08-25-2023

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

An off-year visit was conducted on 8/25/23. The director and on-site supervisor were both present for this visit.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, ratios, nutritional practices, health and safety practices, playground observation, field trip and transportation practices, and administrative review. The most recent COVID updates were also reviewed.

Kids West Clive Learning Academy is a school-age program located within the Clive Elementary School. The center predominately uses the gym, cafeteria (new cafeteria), and outdoor playground area. The program was given permission to open under HHS (formerly DHS) supervision on 8/22/14. Previous to this date, the center was under the Department of Education's supervision. There is a before and after school component as well as a full-day component during the summer and no school days. Before school hours are 6:30am - 8:55am and after school hours are 3:55pm - 6:00pm (with the exception of early out days). Full day programming is 6:30am - 6:00pm.

The center is overseen by a Board and owned by the West Des Moines School District. Amy Dvorak is the director of this program as well as the seven other Kids West programs. Amy has her BS degree in Elementary Education and has been an employee of Kids West for a number of years. The on-site supervisor of this location is Amy Onstot. Amy has her AA degree in Applied Sciences and has also worked in child care for a number of years.

The capacity of the gym is 105 children. The capacity of the cafeteria is 85 children.

During the visit, children were divided up between the gym and cafeteria. In the cafeteria, children were in smaller groups and engaged in free-choice play at the different learning stations made available to them. In the gym, children were engaged in large motor activities. Staff were spaced out in the cafeteria and in the gym and they were engaged with children and their activities.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

The center has several nights throughout the year where parents are invited to activities. These include, but are not limited to a family orientation night, a Halloween celebration night, etc.

A focal point is for staff to get to know parents of children they serve on a more personal level. The on-site supervisor believes they have good relationships with the families they serve.

The center has access to the school dishwasher for sanitizing toys.

A nutritionist reviews all meal items. There is a new nutritionist this school year.

Staff use walkie-talkies to communicate throughout different areas used by the center.

There is a good mix of tenured and new staff. The on-site supervisor stated she enjoys her staff and they all work well together.

There is a secure entrance into the program.

Staff pictures are posted.

The director attends meetings with other directors of school-age programs in the western suburbs on a regular basis.

The on-site supervisor has weekly staff meetings with other Kids West on-site supervisors.

The on-site supervisor has monthly all staff meetings with her staff.

The center has a good working relationship with other school personnel.

The center has a lot more storage space and room to move around since the new addition (cafeteria) was added.

Enrollment has again increased over the past year indicating a need for school-age care within the school.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.11(3)a: Center shall ensure that: Facility and premises are sanitary, safe, and hazard free. Adequate indoor and outdoor space is provided. The outdoor area shall include safe play equipment and area of shade.
1. There is a broken/detached cable to one piece of equipment on the playground.
2. The orange slide is cracked near the bottom of the slide. THIS IS A REPEAT ISSUE FROM LAST YEAR. THIS SLIDE SHOULDN'T BE USED UNTIL THIS ISSUE IS CORRECTED.
3. Part of the rubber coating/covering on a step on one of the climbing structures is coming off and creates a potential hazard.

V. SPECIAL NOTES/RECOMMENDATIONS:

The center is exempt from environmental testing as they serve school-age children in a school building.

The center continues to contract with the school district for field trips and takes a school bus.

IQ4K and I - Power were again discussed at this year's visit.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
