1. Basic Overview

Jami has been providing registered child care for approximately 29 years. Jami has center experience and special education experience prior to that. Jami provides first shift care to children aged six week through school aged. Jami does not currently have any openings in her child care environment.

2. Identify Observed Strengths Of The Program

Jami believes her biggest strength in working with children and families is her great communication skills with parents. Jami provides a monthly newsletter to parents with child care happenings as well as a Face Book page for enrolled families. Jami stated that she is activity and routine focused. Jami reported that they provide nutritious meals to children daily and

everyone becomes a "second family". Jami stated that she trains her staff to always tell the kids "I love you" before they leave day care, because they want to make sure the kids hear that regularly. Jami typically does not need to advertise for openings - generally word of mouth referrals keep her at full capacity. Jami is motivated to make changes and improvements in her child care setting. Currently, Jami has plans for a garage conversion to allow more space for children to play throughout the day.
