- [ ] Non Registered Child Care Homes accepting CCA

Program Population Served:

- [ ] Infant(0<24 mos)
- [ ] Toddler
- [ ] PreSchool
- [ ] School Age
- [X] All Ages

CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Darsheem provides child care for children aged infant through school aged. Darsheem is available for first and second shift care Monday through Friday. Darsheem has a family-oriented setting where he and Deva work to ensure kids feel at home and safe to 'be themselves'. It is a child-led program where the children typically help decide what activities are don on a daily basis. There is not a structured curriculum in use, however, the children learn through normal play.

2. Identify Observed Strengths Of The Program

Darsheem believes their greatest strengths are patience and understanding the children's needs. Deva reports they do well with their observations and noticing the little things when caring for kids. Paperwork is maintained in a filing cabinet and easy to access needed compliance items for annual spot checks. Darsheem remains receptive to feedback and is always quick to make needed corrections or updates. Darsheem communicates well with HHS and generally turns in needed items each year if he is missing anything.

3. Identify The Aspects That Fall Below The Standard

110.7 (2) e : The provider maintains a written record of the number of hours substitute care is provided, including the date and the name of the substitute.
Emergency numbers posted for police, fire, ambulance, and poison information center.
Number for each child’s parent, a person who can be reached when the parent cannot and child’s physician is written on paper and readily accessible by the working telephone.
110.8 (1) h : Has a minimum of one single-station, battery-operated, UL-approved smoke detector in each child-occupied room and at the top of every stairway.
110.8 (2) a : A safe outdoor play area is maintained in good condition throughout the year.
110.9(4) : An individual file is maintained for each child and updated annually or when there are changes. Each file contains:
110.9 (4) c : A signed medical consent from the parent authorizing emergency treatment.
110.9 (4) e : For infants and preschoolers: A statement of health signed by a physician submitted annually.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

Darsheem could not locate his substitute hours. Darsheem will resume documentation of sub hours.
Darsheem needs written emergency numbers for police, fire, ambulance and poison as well as each child's parent, emergency contact, child's dr.
Darsheem did not have smoke detector in one bedroom, however, installed smoke detector during visit. Nothing further needed for this.
Darsheem had one area of the outdoor play area that typically had a barrier in place to prevent children from getting to these items, however the barrier was down. Darsheem put the barrier back up during visit - nothing further is needed for this.
In a review of child files, one child needed the emergency medical treatment authorization form, one needed a current physical and immunization, and some needed their enrollment forms signed and dated again. Darsheem will review all files and ensure that they contain required information.

5. Special Notes/recommendations

Targeted case compliance of Emergency Preparedness Plan completed. No changes required. Plan remains accurate and up to date.
