CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Angela has been a Registered in home childcare provider through the state since 2009. She does not currently participate in the IQ4K rating system but shared that she did complete some Child Net classes in the past. Angela shared that before becoming a registered provider, she provided childcare as an unregistered provider since 1993. Angela does participate in the food program

2. Identify Observed Strengths Of The Program

Angela has policies for her program that are nicely written and address more than just the minimum required policies.
Her emergency preparedness plan is also quite thorough.
Angela's files were nicely organized so this worker was able to review the paperwork while she continued to address the needs and supervision of the children.
There were no safety hazards noted in the home or outdoor play area.
This worker observed positive interactions between Angela and the children on this date. The children were working on puzzles and drawing.
Angela described time in her day for free play, reading, art and playing outside.

3. Identify The Aspects That Fall Below The Standard

Angela was in compliance with all mandated regulatory requirements of a Registered Child Development Home.

Thank you for your service in providing childcare in your community.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

NA

5. Special Notes/recommendations

Notes:
We did discuss safe sleep policies.
Angela understands the number of children allowed in care at one time.

Recommendations:
Angela had written policies for ill children and health emergencies, but she did not yet have anything written in regard to notifying parents in writing that they are able to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. This is a new policy effective 7/1/25 so we did discuss this, and she agreed to get that documented accordingly.
