	PROVISIONAL license from
	DENIAL of initial application
	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Heidi Brown **Date:** 02-28-2024

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/Abilliljsflajs

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

This worker arrived at Kingdom Kids Childcare for an annual visit on 2/28/24. The center provides childcare for two year old to school aged children. They currently have 11 children enrolled with a capacity of 65. The center is located inside of Rock Church. The center has 2 classrooms. The center is for nonprofit.

The director is Breannah Fullmer. The director has an Associate's Degree in Early Childhood Education. The director started in 10/2023. She had worked previously at a child care center in Illinois.

All program space was observed on the date of my visit. This worker observed the following: children eating snack, handwashing, and children engaged in free play.

Nutritional practices were checked. The center provides meals/snacks. The kitchen was maintained in a clean/orderly fashion.

Health and safety practices were also reviewed. The center followed handwashing procedures. The center stored medications appropriately. The center practiced emergency drills as required. The center had completed radon testing as required. The center had completed an annual fuel burning appliance inspection and had a carbon monoxide detector.

The center’s outdoor play area includes: tables, playhouse, riding toys, balls, etc.

The center’s curriculum is Experience Curriculum created by Brightwheel.

The center’s policies, licensing notebook, staff files and child files were reviewed. The center communicates with parents by via: Brightwheel.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

-The center has a website that can be found at: https://kingdomkidsqc.com/
-The center uses Brightwheel to communicate with parents, share videos/pictures, complete sign in/sign out, and billing.
-The center has established a working relationship with Child Care Resource and Referral.
-The center has done a wonderful job of reviewing information sent out to centers by this worker to help ensure their success.
-Classrooms are clean, nicely decorated and welcoming to those who enter.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.10(15)b: Emergency instructions, phone numbers, and diagrams for fire, tornado, and flood shall be visibly posted and documented at least once a month for fire and tornado. Records shall be maintained for current and previous year.

-The center needs to post emergency instructions, phone numbers and diagrams for fire and tornado procedures.

109.10(3)a All medications shall be stored in original containers with physician or pharmacist directions. Labels should be intact and stored so they are inaccessible to children and public. Nonprescription medications shall be labeled with the child's name.
-One child needs an epipen due to a peanut allergy. Parents provided a trainer, not the medication. The director must get the epipen at the center as soon as possible. The director should also get in contact with Jessica Redden to develop an action plan/possibly provide training to staff/parents on allergies. Jessica can be reached at: https://hhs.iowa.gov/programs/programs-and-services/child-care/hcci

109.11(3)a Center shall ensure that:
-Choking hazards (food items) were being served to the children. Objects should not be small enough to fit entirely into a child's mouth. According to the federal government's small parts standard on a safe-size toy for children under three years of age, a small part should be at least one and one-quarter inches in diameter and between one inch and two and one-quarter inches long; any part smaller than this has a potential choking hazard. Please review the following: https://www.healthychildren.org/English/health-issues/injuries-emergencies/Pages/Choking-Prevention.aspx and https://www.kaplanco.com/product/80072/choke-tube-tester-set-set-of-3
-This worker recommends locking or installing child proof latches on church used classrooms and the office door since they are in the same wing of the child care center classsrooms.

V. SPECIAL NOTES/RECOMMENDATIONS:

This worker ordere CACFP materials and CDC materials for the center to help ensure compliance/educaiton.

Based upon this review, it is recommended that this center remain in Full licensing status. It is important to note, all DHS licensing standards and procedures must be maintained during the renewal period.

The following agencies are available to provide consultation, support, and educational opportunities:
