Corrective Action Required:

In regards to the "visible" language in the State statute, you will need to place a label or small sign on the door where the fire extinguisher is located. This will be reviewed at your next compliance visit.

In regards to the missing documentation of drills and smoke detector checks, compliance staff gave you a form that you can copy and use for this documentation. Please start with May 2024 when documenting your efforts. This will be reviewed at your next compliance check.

In regards to the child files, please work with your families to obtain the latest physical, if it was completed in the past year. Or work with families to get the next physical. Also work with your families to receive the immunization records of the children in your care. Child files will be reviewed at your next compliance visit.

Non-compliance with any of the mandated requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations.
