	PROVISIONAL license from
	DENIAL of initial application
	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Kathy DeGeorge-Evans **Date:** 09-12-2023

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

Lil' Vikes Child Care Center is a new center that opened in June 2023. Jamie Hastie and Emily Eyler are co-directors. Jamie and Emily previously worked in a child care center. Capacity for the center is 28 children and the current enrollment is 11. I met with Jamie and Emily during my licensing visit on 8-24-2023.

Observation of Room:
The center looks great, it is one large room with a half wall separating one area. There is a fun variety of age and developmentally appropriate toys and equipment. There were five children with Jamie and Emily during my visit. The children were finishing breakfast and playing. Jamie and Emily will begin using Lesson plans/activities on 8-28-2023. Jamie and Emily were positive, nurturing and attentive to the needs of the children.
The center takes walking field trips to the park, post office, library etc.

Nutrition:
The children provide their own lunch - lunches are kept in the refrigerator. The center provides breakfast and snacks. Menus are posted. Proper food storage was observed.

Health and safety:
Fire/tornado drills are practiced and documented monthly. The first aid kit was properly stocked. Radon testing is required within the first year of licensing and the test results must be under a 4.0 pCi/L. Please check with your local health department for a radon test kit, the cost of the radon test kit is approximately $15.00 to $20.00 and that should include the reading of the test kit.
Please follow medication management procedures when children are prescribed medication. The medication management class is recommended. Bleach water is used for sanitizing/disinfecting. Please follow the directions on your specific bottle of bleach for mixing instructions for sanitizing and disinfecting. If the mixing instructions aren't on the bottle of bleach go to the website on the bottle for instructions. Please use the three bottle procedure 1. Soap/water for cleaning, 2. Water for rinsing and 3. Your EPA and child care approved product for sanitizing and disinfecting. Bleach/water must be mixed daily.

Playground:
The center has a fenced outdoor playground area located in the back of the center up the stairs. The staff takes out toys for the children to play with on the playground. The monthly safety playground inspection was completed.

Transportation:
No transportation services are provided by the center.

Administration:
Two staff files were read and were in good order.
Child files were read - some files needed immunizations on the Iowa form - Jamie reported the child care nurse consultant transferred the information to the Iowa form. Make sure all medical emergency contact information lists a dentist and phone

number. Make sure you have you a hard copy of emergency contact information for parents, pick up information, doctor and dentist - this is required in case your computers are down - Jamie Hastie reported this has been corrected, everything has been updated and emergency contact information has been printed.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Jamie and Emily spent a lot of time getting the child care center ready to open. They have worked very hard getting all the licensing information and handbooks ready, and are working hard to build enrollment.
They are very proud and excited about their new center. They were both very helpful during my licensing visit.
The center looks great and is a wonderful resource for the community.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

I talked with Jamie Hastie on 9-12-2023 and she stated the items list below have been corrected.

Corrected - 109.9(2)b: All files contain sufficient information and authorization to allow the center to secure emergency medical and dental services at any time child is in center's care.
Information lacking: Make sure all children's registration information have a dentist and phone number listed.

Corrected - 109.9(3): Signed and dated Iowa immunization certificates are on file for each child enrolled.
The child care nurse consultant transferred the immunizations to the Iowa form.

V. SPECIAL NOTES/RECOMMENDATIONS:

A full license is recommended for 6-1-2023 to 6-1-2025

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
