1. Basic Overview

Carrie initially provided in home childcare beginning in 2008 until 2013 when she chose to stop doing childcare at that time. She got registered again in 2022. She is not a participant of the IQ4K quality rating system. She does participate in the food program. Carrie shared that she provides care for children from the age of infant until they start school. Carrie utilizes the lower level of her home for childcare. It is set up specially for childcare. She does have a secondary exit from the lower level. Carrie does have part of her yard fenced in for outdoor play for the children. Carrie does have a cat and a new puppy. The animals do not interact with the childcare children. Carrie's daughter is an approved assistant, but Carrie shared she really does not utilize her. Carrie does not have an approved substitute.

2. Identify Observed Strengths Of The Program

CHILD CARE ANNUAL EVALUATION

Carrie had 4 childcare children present when this worker arrived. Three additional children arrived while I was present. The children engaged in free play while I was present. They presented as comfortable in her care.
I did observe Carrie appropriately redirect children as needed.

Carrie has a variety of toys and activities for the children. She indicated that they try to get outside regularly for play. She does have a separated area for the younger children to sit and crawl and play.

Carrie has all her documentation organized nicely into a binder and separated into sections. This worker was able to easily review her documentation while she continued to care for the children.

3. Identify The Aspects That Fall Below The Standard

110.8(1)n. All dogs and cats have annual examinations. Records of the exams are on file and must verify that routine immunizations are current and animal is free of endo and ecto parasites.
Carrie has a new puppy. She does have verification of an annual pet exam and the dog is up to date on immunizations to this point (not old enough to have them all).
Form 470-5153, Pet Health Examination Veterinary Health Certificate, is on file.
Carrie did not yet have the annual pet exam form signed as the vet did not want to sign it until all immunizations had been provided.
The dog is as up to date as it can be at this time.
*Carrie needs to obtain the approved HHS pet exam form once the vet is willing to sign it.

A re-check is not needed at this time. Any corrections will be reviewed at the next annual compliance check.

5. Special Notes/recommendations

Notes:
Carrie shared that she does not transport the childcare children.
Carrie shared that she does not ever use a swimming pool but will use a sprinkler for other water play.
We did discuss safe sleep policies.
We did discuss the number of children she is allowed to care for at one time as a Category C1 provider.

As part of the 2026 Targeted compliance the Emergency Preparedness Plan was thoroughly reviewed. Carrie was in compliance with her EPP.
She was encouraged to review it at least yearly to ensure that no changes need to be made.

Recommendations:
As of 7/1/25 providers are expected to notify all parents in writing that the state does allow parents to submit an exemption for immunizations (either religious or medical) in lieu of the immunization record for each child. This was discussed with Carrie at last year's annual compliance visit and Carrie does have this documented accordingly.
