CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Britnee Noland has been providing childcare services for over 13 years. There were five children in care at the time of the compliance visit. The children were eating lunch when compliance staff arrived. The provider reported they were a little ahead of normal schedule today as one of the children would be leaving early. The provider reported she uses the entire home for the childcare. They go outside as often as possible. The children enjoy getting out and running all around the yard. There is also a play set for the children to play on. Playtime is mainly child-led. The provider reported that they will work on crafts and other things around holidays.

2. Identify Observed Strengths Of The Program

Compliance staff was able to observe the provider interacting with the children. The provider speaks to each child in a clear manner. The provider uses words and phrases that are age appropriate.

The provider stated that some of her strengths include that she is organized and dependable for the families she works with. She also stated that she loves children and is very happy in her position with the children.

She stated that if it is necessary, she does use time out with the children, but it does not happen often.

3. Identify The Aspects That Fall Below The Standard

The provider was in full compliance with regulation standards.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

5. Special Notes/recommendations

2026 targeted compliance measure: Emergency Preparedness Plan. The provider has a completed EP plan that identifies planned actions for evacuation, shelter in place, lockdown, communication and reunification. The plan also addresses continuity of care in the event of a disaster at the location of the childcare.
