	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Nate Knepper **Date:** 12-04-2023

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

N/A.

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

A licensing visit was conducted on 12/4/23. The director was present throughout the visit.

All areas of the program were observed. These areas observed consisted of classroom observations and activities, ratios, nutritional practices, health and safety practices, playground observation (only preschool playground as the school-age playground was being used at the time of the visit), field trip and transportation practices, and administrative review. The most recent COVID updates were also reviewed.

Little Roadrunner Child Care Center is a center in Truro, IA that was given permission to open on 8/19/19. The center is located within the Interstate 35 Community School and they use three classrooms as well as the library and cafeteria at times. The two preschool classrooms each have a capacity of 20 children. The school-age classroom has a capacity of 26 children. The library has a capacity of 34. The center serves preschool through school-age (12 years of age) children year-round using a combination of different learning curriculums. Children attend before and after school and also wrap around care (preschool children).

The center is overseen by a School Board. The center director is Kristen Harris. Kristen has a BA degree in Elementary Education has has many years of experience working in child care including being the director at another child care center in the past.

During the visit, children were observed in free-choice play at the different learning stations set up in one of the classrooms.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Enrollment has increased significantly over the past year indicating a need in the community.

Every other month, all-staff meetings are being held.

The director has many years of experience working in child care and is organized.

Other school personnel are supportive of the program (nurse, principal, superintendent, maintenance, etc.).

Classrooms were clean and nicely decorated.

Files were again nicely organized.

The director stated she felt like she had a good group of staff who work well together. The program continues to be fully staffed. There is good retention and low turnover.

The center uses the smart app Brightwheel for further communication with parents, payments, forms, etc.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.9(2)b: All files contain sufficient information and authorization to allow the center to secure emergency medical and dental services at any time child is in center's care.
Number not in compliance for medical: 1
Number not in compliance for dental: 1
Information lacking: All children enrolled need to have a doctor and a dentist listed. The information needed must include the name, address, and phone number.

109.15(1): Center shall serve each child a full, nutritionally balanced meal as defined by CACFP guidelines.
Milk served to children needs to be one percent or skim cows milk. Two percent milk was observed.

V. SPECIAL NOTES/RECOMMENDATIONS:

Radon testing is due every two years and was last tested 4/8/23 - 4/10/23. Radon levels came back below the 4.0 cutoff. Because levels were below 4.0, the center can move to testing for radon at least every five years now. So long as radon levels remain below 4.0, they can remain on a five year plan. If at the next testing, levels in any classroom come back 4.0 or higher, the center will have to have a mitigation plan, retest, and at least temporarily move back to testing every two years.

The annual boiler inspection was last completed in 8/2023 and expires in 8/2024.

As previously noted, for transportation and field trips, the center contracts with the school district and takes a school bus.

I-Power and IQ4K were discussed at the visit.

There should be a separate monthly fire and tornado drill form for school-age children.

A TB section should be added to the school form that the center uses for physicals had within six months prior to hire. This was noted to be an issue for high school center staff who had sports physicals.

A new, full, two-year license is recommended. The application and payment was mailed into HHS on 11/28/23.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
