CHILD CARE ANNUAL EVALUATION

1. Basic Overview

Melissa has been providing child care since 2016. She also provided for an additional seven years off and on prior to that time. Melissa provides care to children aged infant through school agers for first shift only. Melissa provides an environment where children learn and play through various activities including sensory items and active play. Melissa offers limited TV time to children.

2. Identify Observed Strengths Of The Program

Melissa believes greatest strength is her ability to teach children things through normal play. Melissa offers a wide variety of activities for all ages of children including sensory boxes and activities that often coordinate with seasons or themes. Melissa has a large amount of theme based activities, including circus, space, and many other items for children to enjoy. Lisa maintains her paperwork in an organized fashion making her compliance visits quicker and easier. Melissa is a participant in the CACFP food program for child care providers. Melissa does not utilize one of the Child Care Management Services (Brightwheel or Playground apps) currently as she has developed her own system that works for organization.

3. Identify The Aspects That Fall Below The Standard

None noted.

4. Any corrective action plans, provisional license, and safety plans-steps to get into compliance

N/A

5. Special Notes/recommendations

2026 Targeted Compliance: Emergency Preparedness Plan

Melissa's Emergency preparedness plan was reviewed. Evacuations and other items remain current. Her plan did indicate she had a weather radio, which she no longer has. Melissa updated her plan by taking this statement off of the plan until if and when she gets another radio. Nothing further is required at this time.

If Melissa decides to use the upstairs for care, an additional fire extinguisher is needed for that level of the home (rated 2A10BC).
