	SUSPENSION of license
	REVOCATION of license

Licensing Consultant: Jana Drew **Date:** 12-06-2024

I. IF CURRENT LICENSE IS PROVISIONAL, IDENTIFY THE CORRECTIVE ACTIONS

II. IDENTIFY THE AREAS OBSERVED ON THE VISIT:

Visited center on 11-12-24 and spoke with new lead worker Kathy Rojas. Ms. Ohrada has been with Beyond the Bell for several years and is an onsite for a couple of Beyond the Bell locations. Beyond the Bell Morningside is a before and after school program located in the gym and lunchroom.

The program is available Monday-Thursday 6:30am-8:30am and 3:30-6:00pm; Fridays 6:30pm-8:30am & 1:30pm-6:00pm. The program serves preschool children to 5th grade. The program is owned & operated by Beyond the Bell organization. There is a door bell outside the building to get into the school and the Beyond the Bell program. Staff meet parents at the door to allow access to the program. During the summer this site has been used for the BTB summer program and hours would be 6:30am to 6:00pm and they would have academics in the morning and then in the afternoon go on a field trip. Enrollment changes yearly. A playground is located next to the building.

There are 58 children enrolled in the program due to low staff. At the time of the visit there were 31 present. All areas of the program were observed. The areas observed consisted of classroom observations and activities, nutritional practices, health and safety practices, playground practices, field trip and transportation practices, and administrative review.

The program has sufficient amount of toys, games and equipment for the children. The center sets up a designated table for those students that want to work on homework. The program provides the children with a variety of self-directed and group activities. Children have access to bathrooms. Daily schedule of activities and licensing postings need to be posted.. The Sioux City school system provides breakfast in the morning and snacks in the afternoon. The center follows the CACFP guidelines for nutrition. Medication is stored in a lock box or out of reach of the children, however they do not currently give any meds to children. Center follows proper guidelines for administering medication. Tables are sanitized prior to children eating. First aid kit is sufficient to treat minor injuries. Fire/tornado drills need to documented each month. Good sanitary procedures are followed. All program areas were observed to be clean and well maintained with the exception of the kids personal bags and coats. These were in a pile and was brought to Ms. Rojas. Radon and furnace inspection were available and in normal range. Program the Playground app to help streamline children's information.

Staff files will be reviewed at a later date as they are located at the main office.

The center has a large fenced-in playground. Playground has climbing equipment and slides. Rubber tiles surround the play equipment. Playground inspection is completed. Shade is available on the playground. They also utilize the gym when the weather is not conducive to being outside.

Goals of the program is to get steady staff and partner more with community partners to come into the program.

Strengths of the program is that staff have a good relationship with the children and their families along with the school. Main office of Beyond the Bell is support of the program and to staff.

III. IDENTIFY THE OBSERVED STRENGTHS OF THE CENTER:

Staff keep the children involved in activities.

Set up homework tables for those children who wanted to complete assignments.

Center sends information in the remind app to keep parents aware of what is going on in the program.

IV. IDENTIFY THE ASPECTS OF OPERATION THAT FALL BELOW THE STANDARDS REVIEWED:

109.11(3)a: Center shall ensure that: Facility and premises are sanitary, safe, and hazard free. Adequate indoor and outdoor space is provided. The outdoor area shall include safe play equipment and area of shade. Sufficient space provided for dining. Sufficient lighting shall be provided. Sufficient ventilation. Sufficient heating. sufficient cooling. Sufficient bathroom and diapering facilities. Equipment, including kitchen appliances, are maintained so as not to result in burns, shock, or injury to children. Sanitation and safety procedures for the center are developed and implemented to reduce risk or injury or harm to children and reduce transmission of disease.

V. SPECIAL NOTES/RECOMMENDATIONS:

It is recommneded to update Emergency Prepardness policies.

Program needs to email consultant by 12-30-24 confirming that all aspects that fall below standards have been corrected.

A full license is recommended at this time.

At least one visit will be made to the center during the next year.

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact your DHS Licensing Consultant to discuss the issue. The child care director may also send a response which will be placed in the licensing file.

*Note: If you are a member of the general public, there may be additional information contained in the public file. You may contact the DHS Licensing Consultant to inquire.
